CİFe dağ taş bile vız gelir.

CİF mutfak, banyo ve lavabo temizliğinde çok etkilidir. Bunu zaten biliyorsunuz.

Ama günlük yaşamınızda mutlaka CİF'le temizlenecek daha çok şey vardır.

Örneğin bisikletinizden yolların kirini atmakta, dibi yanmış bir tencereyi yepyeni yapmakta, küçük çocuğunuzun buzdolabına çizdiği resimleri silmekte, bahçe sandalyelerinizi yenilemekte, spor ayakkabılarınızı temizlemekte CİF'in üstüne yoktur.

CİF'in nazık gücüne o kadar çok yerde ihtiyaç var ki!...

The RC Q Spring 93 issue marks another milestone for Robert College; the 10th anniversary of its alumni club, Bizim Tepe. It seems like only yesterday when a group of foresighted "Kolejli" purchased land adjacent to the Arnavutkoy campus for building an alumni club. Their energy and enthusiasm spread and Bizim Tepe was founded. Bizim Tepe immediately became and remains a focal and integral part of the Robert College community.

As the club evolved over the years, it naturally underwent many changes. We asked Zeynep Man Durukan A C G 57, head of the Alumni Office from 1978 to 1983, to chronicle the history of Bizim Tepe. The idea for such a club was in fact her brainchild, and we would like to take this opportunity to gratefully acknowledge once again Zeynep Durukan's invaluable contributions to this community.

Whether members use it to exercise or socialize, the club has brought alumni of both Bebek and Arnavutkoy campuses under one roof, on "our hill". Host to numerous RC events for ten years, Bizim Tepe stands rooted firmly by the unique institution it exists to serve.

Looking forward to many more decades together at Bizim Tepe.

Despite playing on a very old piano in need of replacement Hüsnü Onaran enjoyed playing to fellow alumni at RC.

Onaran, RA 62, Plays for Alumni

Over 250 classic music enthusiasts listened to RA 62 graduate, concert pianist Hüsnü Onaran play Haydn, Beethoven and Schubert on Feb. 22 at Suna Kırarç Hall. Istanbul born Onaran settled in the USA at an early age and studied music at the Boston Conservatory. At present he is working with Dorothy Taubman in New York and has been giving concerts in many cities of Europe and the USA.

After giving his concert at RC on a piano which is over 100 years old (it was donated to the school in 1891 !!) Onaran said he would be

very happy to be the first to give a concert on a new concert piano which the school badly needs.

Nonetheless, the event brought together alumni and guests for a cultural evening. A cocktail preceded Onaran's performance. The Alumni Association thanks Ciragan Palace Casino for their support in organizing this event.

A Donation to Art

The Alumni Association made a major contribution to art at RC

by buying a new kiln for ceramic classes held at the art studio. A tiny old kiln, the major component of ceramic work, was on its last legs when it finally collapsed last fall. A two ton kiln, heavy because of its fire brick insulation, was

purchased this winter and it now stands outside the art studio awaiting final installation work. The art studio is looking forward to filling it up with student ceramic works of art as soon as possible.

The new kiln, bigger and heavier than the previous one, arrived safe and sound.

Busiest Season

The Alumni Association's social activities have been going on in

full swing all through the winter and spring. Suna Kırarç Hall witnessed another

colorful music night soon after Hüsni Onaran's concert. Brahms's love songs and waltzes were skillfully performed with the participation of soprano

Alis Manukyan, alto Yıldız Dağdelen, tenor Metin Mansur and bass Kenan Dağışan with Zeynep Eğilmez and Gülfam Gökner on the piano.

Another very popular event has been the Businessmen/Businesswomen lunches. Newspaper and TV journalist Mehmet Ali Birand and talk show hostess of "Yüksek Ökçeler" Leyla Tekül were the latest guests hosted by the Alumni Association at Bizim Tepe. Their participation at these events have generated great interest

The Alumni Association also made tickets available to many cultural events for the enjoyment of its members. Among these were Verdi's opera "Nabucco", Dostlar Theater's "Waiting for Godot", Theater Studio's "Derin bir Soluk Al" and Dörmen Theater's "Nerdeyse Kadın".

With her lively speech, singing and smile Leyla Tekül was a very popular participant of the Business lunch series organized by the social committee.

Election Results

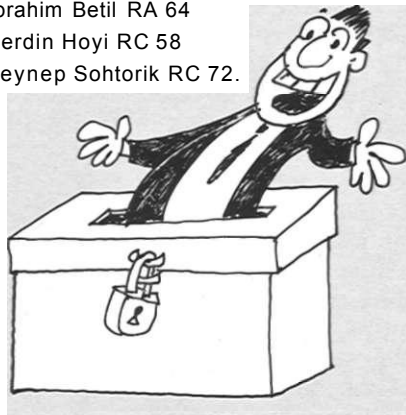

The annual meeting of the Alumni Association General Assembly was held on March 15, 1993. 98 members were present. Six members of the executive board had completed their two year terms. Engin Asal, Ayşe Sümer and Güler Vafi were not candidates in the new elections while Fatma Karakurt, Gülsevil Nalbantoğlu and Leyla Pekcan were reelected. The present officers of the association are as follows.

Prof. Dr. Üstün Ergüder RC 57
President
Sema Özsoy ACG 67 Vice-president
Ayşe Doğruer ACG 63
General Secretary
Nuri Özgür RA 70 Treasurer
Nigar Alemdar ACG 66, Turhan Alpan RA 66, Fatma Karakurt ACG 58, Ahmet Meray RA 70, Gülsevil Nalbantoğlu

ACG 67, Leyla Pekcan ACG 61, Prof. Dr. Sabih Tansal RC 58 and Mete Yalçın RC 57.

Ahmet Meray and Nuri Özgür were assigned by the Board to represent the Alumni Association at the Bizim Tepe Board. The Bizim Tepe Board consists of five members. Two are assigned by the Alumni Association Board and the rest are elected by the members of Bizim Tepe. Elections held on April 3, 1993 brought the following graduates to the job.

Ahmet Meray RA 70 President
Nuri Özgür RA 70
Ibrahim Betil RA 64
Ferdin Hoyi RC 58
Zeynep Sohtorik RC 72.

BİZİM TEPE

Bizim Tepe'nin Derneğimizin yönetiminde faaliyete geçmesi beraberinde birçok değişikliği getirdi.

"Değişim" sözcüğü şu anda bütün dünyada gündemde. Bizim Tepe de bunu yaşıyor ve kanımca da yaşamaya devam edecek.

Tepe faaliyetlerine çeşitlilik getirerek katılımı arttırmaya çalışıyor. Bu amaçla eğlence ağırlıklı olayların yanısıra yeni temalar geliştirdik. "Politika Günleri" bunlardan bir tanesi... Hiçbir ayırım yapmadan ülke yönetiminde söz sahibi kişileri sırayla davet ediyor, onların görüşlerini alıyor, sorular yöneltiliyoruz. Bir başka tema da sanat... Bizim Tepe salonlarında artık resim sergileri izleyebileceksiniz. Çeşitlilik burada da bitmiyor. KÜSAV'la işbirliği içinde güzel bir müzayede yaşadık Bizim Tepe'de, yenileri takip edecek.

"Değişim"in koşullarından birinin de fiziki değişiklikler olduğu bilincindeyiz. Bu amaçla yıpranan tesiste üyelerimizin pek göremediği bir çok onarım yapıldı ve yapılmakta. Salonlarımızda ise görülebilecek bir çok değişikliği yaz aylarında gerçekleştireceğiz. Herşey, bu güzel lokalin sizler için, sizlerle beraber daha iyiye gitmesi için yapılıyor. Bu amaçla da Vakıf, Dernek, Bizim Tepe Yönetimi çalışıyor.

İlginizi ve destecinizi devam ettirmeniz dıleyiyo

BT Travel Club hits the Road!

The Bizim Tepe Travel Club successfully organized Kartalkaya and Safranbolu tours this spring and is working on a trip to Fethiye Club Robinson during June. A Black Sea tour is planned for July. The founder of the club, Bulent Ozsoy, RC Eng 67, urges members to become active in this new endeavor.

Tuesday Bar Nights

The Tuesday Bar Nights continue to be the most popular events at BT.

BT members host a Tuesday bar night each week and lately a new

classification system has brought about a friendly competition. Points are awarded to each hosting party according to the number of people attending their bar night and the amount of drinks consumed. The first five places were as follows as of April 23.

1. Nedim Göknıl, Oya Başak 571 points
2. Oğuz Dağdelen, Ayla Gümüşlüğü 445 points
3. Hasan Subaşı 426 points
4. Ex-Citibankers 402 points
5. Barlas Bar 350 points

The Class of RA 62 organized a get together at the BT Bar on Tuesday, April 6, 1993. Serving behind the bar were Aydın Bilgin and Hasan Subaşı, pictured with Ünver Boduroğlu and Turhan Alpan. Pictured in the center are surprise guests of the evening, "Kazım" and his brother. For Bebek campus alumni, Kazım ran the canteen in the sixties and early part of the seventies, is embedded in College history.

A Decade at Bizim Tepe

Zeynep Man Durukan, A C G 57, who has been one of the most creative and influential forces behind the Bizim Tepe project since its conception, recounts how it all started.

On June 23rd 1993, we will celebrate the 10th anniversary of B.T. But the idea goes way back to 1978. That was the year Jim Maggart was appointed Headmaster of Robert College and I, as Director of Alumni Affairs and Development. Alumni interest at school was at an all time low. In 1972 the Bebek Campus had officially quit being Robert College and was Boğaziçi University. On the Arnavutköy Campus, which for over a century had housed the American College for Girls, now appeared a co-ed high school named Robert College.

The A C G alumni refused to

consider the new school as their alma mater. They all fondly remembered the beautiful Assembly Hall, the elegant dining rooms, the Blue and Yellow Parlours. The Bebek campus alumni on the other hand, said they only visited their sisters in Arnavutköy, or came over to participate in and attend parties, plays or concerts. This new high school (not even a yilksek) had nothing to do with them. So, Jim Maggart and I put our heads together and came up with the idea of founding something new that all alumni could identify with, an alumni club. This idea was presented to the Board of the Alumni Association and was met with great enthusiasm. Word soon spread amongst the alumni and interest was great. In the meantime some members of the Association Board, thinking this project to be beyond their scope, went to the I lısar

Foundation and asked for their help and co-operation. The first reaction of H.E.V. was somewhat cautious. They said that if by 1980 the A.A. could come up with T.L. 20.000.000 they would consider it.

Jim Maggart suggested purchasing a piece of land adjoining the campus. This would serve a double purpose of allowing the alumni access to the campus grounds and also kindle their interest in the school, its students, faculty and administration; since it would be so very close by. The alumni club idea was also presented to the Turkish and American Trustees during their Board meeting in Istanbul in Fall 1978.

A feasibility study was made by Selahattin Bereket and the late Özger Amas. A first

amount would be non-refundable. The twenty "believers in the cause" were:

Nigar Alemdar, Özger Arnas, İnal Avcı, Selahattin Bereket, Ömer Erül, Ayla Gümüşlüğü, Fahir İlkel, Oya Karamızrak, Suna Kırar, Süheyla Kunt, Yaşar Malta, Zeynep Man, Meral Müminoğlu, Ali Neyzi, Nihal Pulat, Mehmet Seven, Gürsan Şeyhun, Ergin Nadir Telci, Korkut Toğrol and Deniz Uslu.

The T.L. 20.000.000 was collected in a record short time and on August 20, 1979 the land on which the B.T. building stands was bought by H.E.V. Here should be mentioned the special efforts and financial donations

handled by the Alumni Association. The military intervention of 1980 put a necessary end to the dispute. Since all activities of all associations throughout the country were suspended the project was turned over to H.E.V. On May 17, 1981, the ground breaking ceremony was held and Hüseyin Gülek, who had made the first very major donation, officiated. On March 2, 1981 Bizim Tepe A.Ş. was founded by the financial donations of the following:

Feyyaz Berker, Cem Boyner, Ömer Çavuşoğlu, Oğuz Dağdelen, Ömer Dinçkök, Şakir Eczacıbaşı, Muzaffer Gazioğlu, Suna Kırar, Hüsnü Özyeğin and Alp Yalman. All these people then donated their shares to H.E.V.

Right away, a liason committee was formed and started working. The committee was made up of:

Kayhan Akduman, Turhan Alban, İnal Avcı, Selahattin Bereket, Cem Boyner, Fadıl Cerrahoğlu, Burhan Karaçam, Cem Kozlu, Güler Sabancı, Gürsan Şeyhun, Korkut Toğrol and Erkut Yücaoglu. Jim Maggart and Zeynep Man were ex-officio members.

On November 3, 1982, the first Board of Directors of Bizim Tepe were chosen by H.E.V. They were:

Oğuz Dağdelen (President), Gürsan Şeyhun (V. President), Nigar Alemdar, İnal Avcı, Burhan Karaçam, Zeynep Man and Korkut Toğrol. Vedat Uruş was appointed Secretary General of H.E.V. and Director of B.T. The final drafts were drawn by the architect Şevki Pekin and the construction got under way. From the very first an alumnus, also a H.E.V. member, Feyyaz Berker,

Mucize şimdi şişede.

Tıbbın kabul ettiği mucize, zeytinyağı, şimdi şişede. Kolay açılıyor, kolay tutuluyor, kolay dökülüyor. Tercihinize göre yarım, bir ya da iki litre. İki değişik lezzeti var. Klasik lezzetiyle riviera, kendine has aromasıyla natürel sızma. İkisi de Komili'den.

Zeytinyağı neden mucize? Diğer yağların

tam aksine, kandaki zararlı kolesterol miktarını, dolayısıyla kalp krizi riskini azaltıyor.

Ülser ve gastriti önüyor, tedavisine yardımcı oluyor.

Aynı zamanda bir vitamin deposu. İçindeki E, A, D ve K vitaminleri her yaştaki insanın ihtiyacı. Öyle ki, yağsız inek sütüne birkaç damla zeytinyağı katıl-

dığında, anne sütünü bırakmış bebekler için anne sütü gibi doğal bir besin kaynağı olabiliyor. Büyüklerde de hücreleri yenilerken, doku ve organların yaşlanmasını geciktiriyor.

Bu mucize, Türkiye'de 114 yıldır Komiliyle

birlikte anılıyor. Çünkü Komili, zeytinyağı sevenlere 114 yıldır en kaliteli ürünleri sundu. Bu ilkesinden hiçbir zaman taviz vermedi. Bu ilke sayesinde bugün en çok tercih

edilen zeytinyağı, yine Komili.

Zeytinyağı, sağlık açısından olduğu kadar, lezzet açısından da mucize.

Bunu bizden iyi kimse bilemez! Çünkü

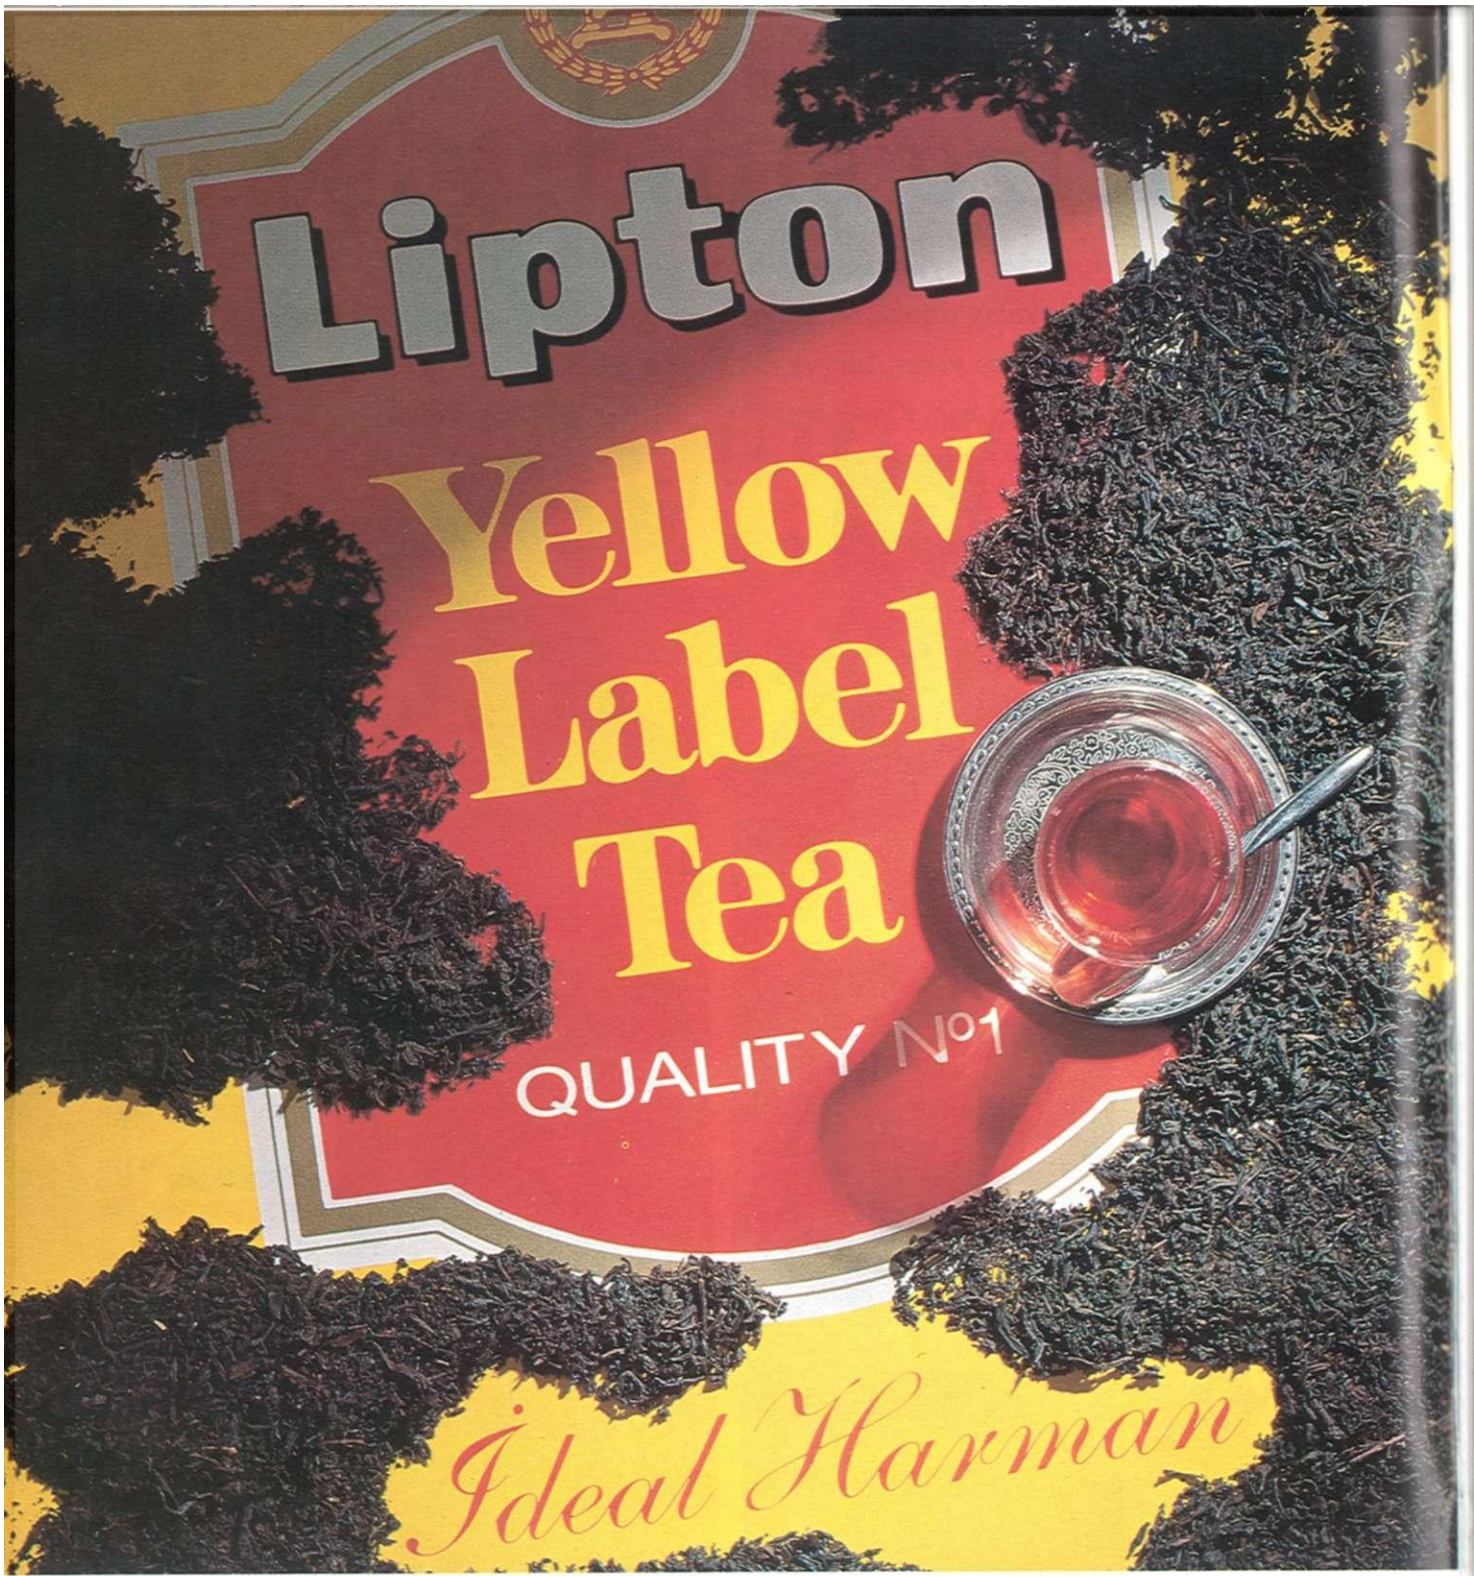

Türk mutfağından başka hiçbir mutfakta "zeytinyağlılar" diye anılan yemekler yok. Buna rağmen, zeytinyağına bugün yeterince kıymet verdiğimiz söylenemez. İtalyanlar milli yemekleri makarnayı zeytinyağıyla yaparken, İspanyollar sıcak et yemeklerini zeytinyağıyla

pişirirken, biz zeytinyağlı yemekleri bile başka yağlarla yapmaya başladık. Oysa ki zeytinyağı, herkesten çok bizim mucizemiz. Ondan nasıl vazgeçeriz!

Zeytinyağı mucizedir. Nasıl kullanmazsınız!

*Zeytinyağı hakkında yapılmış bilimsel araştırmalarla ilgili ayrıntılı bilgi edinmek isterseniz, "Zeytinyağı", Komili A.Ş., Setüstü 45, Kabataş-Ist. adresine yazabilirsiniz.

During the past ten years a number of people chosen by H.E.V. served on the board of Bizim Tepe. Their generous donation of time and effort will always be remembered.

A great number of volunteers also worked on the various committees. They all helped make B.T. a more culture and sports oriented club. All these people deserve a great big thanks.

However, over the years B.T., in accordance with the times, ran into financial difficulties. Various solutions were offered and tried out. Finally it was decided by the majority of the B.T. members, A.A. members and the H.E.V. members that B.T. should be a venture of the A.A. since there were no restrictions of law any more. At a general assembly held in March 1993 this was voted on and was accepted. On April 3 of this year the new board of Bizim Tepe was chosen

by the BT members themselves. (See page 5)

This year we celebrate not only the tenth anniversary of B.T., but also the 130th anniversary of R.C. This fine institution founded on the twin hills of Bebek and Arnavutkoy, now continues its existence on the new R.C. campus. The Alumni Club next door, has certainly served its purpose. Alumni interest in the school is at an all time high. The new buildings erected on the campus bear witness to this fact. The Annual Giving Campaign,

has really caught on and the class representatives are working hard to up their own goals year after year.

Joining forces with B.T. also proved fruitful to H.E.V. Their bank account is now very active and donations from the efforts of class reps and B.T. member entrance fees goes directly to H.E.V. enabling them to meet the needs of the school.

In conclusion it can be said that this B.T. project which was regarded by many as "Mission Impossible" at the beginning, has proved itself "Mission Accomplished". To alter the words of a great American a little, B.T. is of the alumni, by the alumni, for the alumni. May this tradition continue.

Her Zaman "Lady"

mezunlarının 6 yıllık yatılı anıları (Hazırlık I ve II okuyanlar) bitip tükenmek bilmez. Nedense, bellek yalnızca iyi ve eğlenceli olanları anımsar; bir tür koruma içgüdüsü. Yüzlercesi arasından bunu yazdığım için dünya tatlısı, dünya zarfı ve güzeli Mme. Dik'in o engin hoşgörüsüne sığınacağım.

Fransızca'yı seçmeli ikinci dil olarak alanlar, aynı zamanda zarafet ve incelik derslerinin kendiliğinden, gönüllü eğitimcisi olan, her zaman şık ve bakımlı Mme. Dik'in sıkı gözetimi altındaydılar. Koridorlarda koşsanız, ıslık çalsanız, masaya dirsek dayayarak yemek yeseniz, "Ladies don't whistle", "Ladies don't run", "Ladies elbows down" diye tatlı sert azarlayan, sık sık "Behave yourself" uyarılarıyla biz kolej haytalarını bir nebze olsun Lady kılmaya çalışan Mm.Dik'in pembe muslinden külotu, yere ayaklarının ucuna düştüğünde şaşkın ama vakarlı bir zarafetle nasıl toparladığını unu-

tamıyorum. Gülmemek için dudaklarını ısırarak izleyen bizler (ödümüz de patlardı) koridora taşıtığımızda kahkahalarımızla ortalığı çınlatıyor, üç dakika içinde tüm öğrenciler bu pembe külot hikayesi ile çalkalanıyordu.

Sevgili Mme. Dik, sizi çok özleyorum. Ellerinizden öperim.

Basıldık!

Geçen sayıda yatakhane anılarının sonuna eklenen "to be continued..." sözcükleri beklediğim üç sözcük idi. Böylece ben de bir anıma ortak edebileceğim sizleri. RC'de kalıp da ilginç hikayeler yaşamamak mümkün değil. Prep'teydik. Okul başlayalı birkaç ay olmuş, sonunda ailemizden başka birileriyle konuşabileceğimize sevinerek özel muhabbet saatleri tayin etmiştik. Yattıktan sonraki ilk saat, uykuya geçmeyi kolaylaştıran büyü- lü zaman... ilk denemelerde başarısız oluyorduk çünkü yataktan yatağa ses ulaştırmayı sağlamak, yakalanmaktan başka bir sonuç getirmiyordu hayatımıza. Sonunda çareyi, her gece birinin yatağında toplanmakta bulduk. Artık dışarıya ses gitmesi mümkün değildi, zekamızla övünüyorduk. Nereden bilebilirdik ki, ihtar kağıdının üzerinde yazdığı gibi "aynı yatakta basılmanın" bir suç olabileceğini.

Mehmet Uysal, Türkçe Öğretmeni

Yatakhane'den İnciler

Ali Neyzi, "Alma Mater" adlı kitabında, "Gerçek kolejliler, yatılılardır" diyerek önemli bir gerçeği belirtmiş oluyor. Başka türlü olması da mümkün değil zaten. Yatılı bir öğrencinin iki kez ağladığına tanık olursunuz, anne ve babasıyla gelip onlardan ayrıldığı, yatakhane'deki ilk akşam ve lise mezuniyet töreni sonrası buruk ayrılış anı...

1981'de geldim Robert Kolej'e ve dört yıl sürveyanlıktan sonra 1985'ten beri de yatakhane amiri olarak çok şey paylaştım çocuklarımla...

Bir sabah, orta birinci sınıf öğrencilerinden Fatih inal telaşa kapımı çaldı, bu denli telaşın nedenini sorduğumda, çoraplarını bulamadığını okula da geç kalmak üzere olduğunu söylerken ağlıyordu. Önce sakin ol ve bana anlat, çoraplarını akşam nereye bırakmıştın? Fatih'in cevabı oldukça ilginçti: "Öğretmenim, kaybolmasından korktuğum için çoraplarımı dün akşam giyerek yatmıştım." Çorapları bulduk ve Fatih, zama- nında derse yetişti.

Bir başka anı da, şu anda Amerika'da çalışan Levent Kahramanla ilgili. Mayıs ayının son günleriydi.

Her zaman olduğu gibi balolar okulda başlıyor ama okulda bitmiyordu. Levent de dışarıda devam edecek bu eğlenceye katılmak için benden "eve çıkma izni" istedi, ben de verdim.

Saat sabahın dördüydü sanırım, bekçinin telefonuyla uyandım. Kapıya indiğimde Levent, boyunda beş altı kanga sucukla karışında duruyordu. Levent, geç vakte kadar süren eğlenceden sonra eve gitmemiş, yatakhaneye dönmüş. O saatte beni arasa kızabileceğimi düşünerek etüd salonunun penceresinden yatakhaneye girmek istemiş ama bekçiye yakalanmış. Bu arada ertesi gün yapacağımız "Geleneksel yatakhane sucuk partisi" için akşamdan aldığı sucukları getirmeyi de ihmal etmemişti.

Bir ailedir yatakhane, acısıyla, tatlısıyla çok şey paylaşılır orada... Yatakhane amiri olmak, öğretmenlikten de başka bir şey. Ben bunu yaşayan bir kişi olarak kendimi ve bana her zaman destek olan eşim Serap'ı şanslı sayıyorum.

Floş Royal

Robert Kolej yüksekte okurken başımdan geçen çok enteresan bir olayı anlatmak istiyorum.

Benim zamanımda yatılı olanlar iki üç kişilik odalarda kalırlardı. Ve bizler bu müstakil odalarımızda zaman zaman yasak olmasına rağmen kağıt oyunları oynardık.

Yine böyle bir gece bitişliğimizdeki Zeki Kayıran ile Avram Ninyo'nun odasında 4 kişi poker oynuyordu. Oyuncuların ikisi okul dışından arkadaşlarımız diğer ikisi de Zeki Karakimseli ile Avram Ninyo. Gece geç vakit bir gürültü ile koridora fırladık, Yurt Amiri Mümin Tansever ağabeyimiz poker oynanan odanın kapısını zorluyor ve büyük bir dedektif edasıyla "Sizleri yakaladım kaçamazsınız" diyor.

Her neyse, bir zaman sonra kapı açıldı ve Mümin Bey'le beraber i-

çeri girdik. Okul dışından olan iki şahıs yataklardan birisinin üzerinde oturuyor ve etrafta başka kimse yok. Pencere tarafında yangın merdiveni vardı ve ben hemen içimden "Ohh! Zeki ile Avram burdan kaçtılar" derken dolaptan bir ses geldi. Mümin Bey hemen dolabın kapağına asıldı, fakat kapak açılmadı. Mümin Bey kapağı tam biraz açıyor trak kapak geri kapanıyor. Hepimizi aldı bir gülme, biz katılırken Mümin Bey bağıra çağıra dolabın kapısını uzun uğraşlar sonu açtı. Ve karşımıza sırttan bir şekilde Zeki Karakimseli çıktı.

Avram ile Zeki Kayıran merdivenden kaçmış öbür Zeki de dolaba girmiş. Ömür boyu Zeki'nin o halini unutamam.

mak isteyenlerin içinde iki de alışılmadık isim vardır: Bora ve Ahmet. Ancak, balo bitiminde diskoya gidilecek olması üzerine onlar da bütün '92 mezunları gibi Ahmet'in karşı yakadaki evine güvenerek yatakhane'deki nöbetçi sürveyana telefon açtılar, "Kusura bakmayın, biz haftasonu kalmak için adımızı yazdık ama gelmeyeceğimizi haber veriyoruz" dediler. Ancak saat 24:00'de ağır hava koşulları yüzünden ufak bir ihtimalle yatakhaneye dönebile-

ceklerini haber veriyorlardı...

Gecenin zifiri karanlığında, saat 02:30 civarlarında yağmurun şakırtısını bastıran gürültüler duyuldu yatakhane'nin alt katında. Ben merak içinde bu sesi araştırırken alt kattaki odaları dolaşıyordum. Bu sese uyanan sadece ben değildim. Arkamdan gelen sürveyan ağabeyimiz benim girdiğim odanın ışığını açınca gördüğümüze ne o ne de ben inanabildik.

İliklerine kadar ıslanmış ve soğuktan buz kesmiş olan Bora ve Ahmet yatakhane'ye ağır yağmur yüzünden dönmek zorunda kalmışlar ve kimseyi uyandırmadan açık gördükleri bu odanın üst penceresinden içeri girmeye çalışıyorlardı. Bir anlık sessizlik yerini gülüşmelere bıraktı. İşte o gün odadakiler yatakhane firarlarından sonra yatakhane'ye girmeye çalışan yatılı öğrencilerin varlığına şahit oldular!

Sabah Uykusu

Sabahları uyanmak benim için her zaman problem oluyordu. Sekizde uyanıp 8:15'te aşağıda olmak günümün en zor kısmı idi.

Yine bir şekilde geç yattığım ve hiç uyanmak istemediğim bir sabahı. Uyandırma zili ile hiç ilgilenmeyip uymaya devam ediyordum. Sekiz on beşte birinin dürtüklemesi ile uykumun bölünmesine o kadar sinirlendim ki yattıktan fırladım, terliğimi kapıp beni bu tatlı uykumdan uyandıran doğru fırlattım. Beni uyandıran dönp göz göze geldiğimden utançtan kıpkırmızı olmuşum. Sevgili Aydın Bey hayretle bana bakıyordu.

Konuşan Türkiye'ye Doğru

Bu sayının konuğu Nedim Saban 1986'da RCden mezun oldu. New York Üniver sitesinde tiyatro okudu. Türkiye'de ilk defa, dinleyicilerin telefonla katılarak, fikirlerini belirtebildiği, canlı yayında karşılıklı tartışabilen bir ortam yarattı radyo programında. Ne yazık ki RCQ baskıya girdiği şu sıralarda bzel radyoların kapatılmış olması nedeniyle bir süredir her pazar gecesi "Evet İstanbul, seni dinliyorum" diyen Nedim'in enerjik sesinden de yoksunuz.

Nedim Saban RC'li olduğu için herhalde hem mutlu hem de gururludur. Ama RC de sevin sin, gururlansın, Nedim gibi bir "glittering letterato"un formasyonuna katkıda bulunduğu için. Kiminizin radyodan, kiminizinse tiyatrodan tanımaya başladığı bu yeni soluşun sahibi bakalım in miymiş, cin miymiş. Nedim Saban ile Suay Aksoy, RC Yük 72, görüştü.

Suay Aksoy - Siz "r"leri bile söyleyemezken "talk radio" yapıyorsunuz. Merak ediyorum adam bulamadıkları için mi sizi işe aldılar, yoksa başka yetenekleriniz var da kendinize çok mu güveniyorsunuz?

Nedim Saban - Tabii başka yeteneklerim var, öteki 28 harfi söylüyorum! Aslında şöyle denebilir: Türkiye'de TRT'nin yerleştirdiği bir form var: Korkunç yanlış bir radyoculuk anlayışı bu. Bu kurumda çalışan herkes garip bir şekilde hiç vurgu yapmadan, her şeyi nötr

Konusan ve demokratik bir Türkiye yaratmak misyonu üstlendim.

konuşuyor. Halbuki ben halktan biri olarak, bir aydın olarak o kimliğimle bu işi yapmak istiyorum. Dolayısıyla talk radio'cu, r'leri söylemiş söylememiş, ne fark eder? Önemli olan doğru dürüst konuları olması, bunları konuşabilmesi. Özel radyolar çıktığı zaman, bunlar özentili kötü Türkçe konuşuyor diye eleştirildik. Halbuki önemli o-

lan ne konuşulduğuydu. Söylenen şeylerin özü mü önemli, yoksa biçimi mi? Sanıyorum o biçimi kırdık. Bir de tabii talk show açısından kültür birikimime ve konuşma isteğime olan güvenim r'leri unutturdu bana.

S.A. - Talk radio'cu olmak için önceden bir eğitim gerekiyor mu?

N.S. - Kesinlikle hayır. Bence sadece kültürlü ve paylaşımcı olmak gerekiyor, çünkü insanlarla birtakım şeyleri paylaşmak zorundasınız. Yalnızca halka vermek değil, halktan da alıyorsunuz da. Mesela kendi arkadaşlarımla kürtaj sorununu konuştuğum ya da çevre kirliliğini konuştuğum çok azdır. Ama radyodaki arkadaşlarımla, bunu konuşabiliyorum. Benim için de müthiş bir kazanç. Yüzeysel dostluklardan kurtuluyorum.

S.A. - Konu seçerken belli kriterleriniz ve ön yargılarınız var mı?

N.S. - Var, evet. Halkın merak ettiği şeyleri konuşmak ve tabu olan şeylere biraz dokunabilmek. Önyargım da, elden çıkabilecek, bir anda patlayabilecek konuları konuşmamak. Mesela Bosna Hersek'i konuşmadım. Çünkü toplumun biraz düşünmeye zaman bulduğu, özümsemediği şeyleri konuşmak istiyorum. Oysa ırkçılığı konuştum. Çünkü ırkçılık, bir "concept" oluşturabiliyor. Ama Bosna Hersek'i özelde konuşmadım. Çünkü amaç insanları katliam paniğiyle konuşturmak değil daha rasyonel bir düşüncüyü oluşturmalarını sağlamak olmalı. Bir de belirli günler ve haftalar kalıbını kırmaya çalışıyorum. Yani kadın gününde kadından bahsediliyor, ama bu bir gün sürüyor. 365 gün kadın unutulmuş oluyor. Dolayısıyla bu günlere ben hiç uymuyorum.

S.A. - Hangi konuları yaptınız şimdiye kadar ve hangilerinden iyi cevap aldığınızı düşünüyorsunuz?

N.S. - Cevap açısından dayak programı olağanüstüydü. Çok acıklıydı ama olağanüstüydü. Cinsel taciz, feminizm, kürtaj, çevre kirliliği ve doğal gazı yaptım, sevgi üstüne ve bir de önyargı üstüne program yaptım.

S.A. - Bütün bu saydıklarınız sizi idealist bir birey olarak tanımıyor.

N.S. - Evet, öyle, mesela ırkçılık ve dayak programları beni çok etkiledi. Çünkü ırkçılıkta insanlar ırkçı mesajlar yolladılar birbirlerine. Garip bir panoraması çıktı Türkiye'nin. Dayak konusunda da asla unutamayacağım bazı şeyleri duydum. Mesela bir adamı bütün bir vapur dövmüş. Kabahati tip o-

larak solcuya benzemesiymiş. Başka biri, evine hırsız girdiği için gittiği Emniyet Amirliği'nde cinsel tacize uğramış. Düşünün bunları anlatıyorlar ve ağlayarak anlatıyorlar.

S.A. - Adeta bir misyon üstlenmiş gibisiniz?

N.S. - Tabii. Konuşan bir Türkiye ve demokratik bir Türkiye yaratmak misyonu bu. Bir de her on yılda bir baltalanmayan köklü öz-

gürlükler yaratmak çabası. Hatta insanın kendi özgürlüğünü kendi yaratması da söz konusu. Bizim programda o oluştu yavaş yavaş.

S.A. - Sizin şu anda bir de tiyatronuz var: Tiyatro Kare. Bir oyun yönetiyorsunuz. O nereden devreye girdi?

N.S. - O benim vazgeçmeyeceğim tiyatroculuğumdan kaynaklanıyor. Türkiye'ye geldiğimden beri birtakım teklifler aldım, televizyona girmem için transfer paraları önerdiler. Büyük rakamlar değildi ama ekonomik olarak bana daha fazla kazanç sağlayabilirdi.

Oysa ben çok büyük bir riski göze alıp, sıfırdan bu topluluğu oluşturdum. Çünkü Türkiye'de tiyatro yapılabileceğine ve tiyatrocunun benim katkı olacağına inanıyorum. Böylece bir yenilik getirmesi amacıyla kaliteyi (quality and not quantity) temel alan bir topluluk kurduk. Ve Macide Hanım'la başladık.

S.A. - Yenilik getirmek için yılların Macide Tanır'ını mı düşündünüz, biraz çelişkili değeri mi?

N.S. - Aslında değil. Macide Hanım'ın getirdiği kalite özel tiyatrolar için yeni. Kendisi özel bir tiyatrodaki hiç oynamamıştı. Biz bu kuşakla genç kuşağı birbirine kenetlemek istiyoruz.

S.A. - Planladığınız başka oyunlar var mı?

N.S. - Elbette. Henüz seçmedik, ama mesela Çiğdem Selçuk'un tek başına oynayacağı bir Virginia Woolf var. Bunu başka bir yönetmen yönetecek. Bizim istediğimiz, bir kurum olmak. Yani Nedim Saban Tiyatrosu değil de, tiyatro olarak bir kurum olmak: Tiyatrokare kurumu.

S.A. - Bir yanda radyo, bir yanda tiyatro. Başka bir şey var mı hayatınızda?

N.S. - Televizyon var. Ama televizyon genelde tiyatrodaki kaybettiğim paraları toplayabilmek için seçtiğim bir alan. Saklambaç'ın ilk 50 programını ben yazdım. Aralık'ta ayrıldım.

Şimdi Nükhet Duru'yla beraber bir show hazırlıyorum.

Alumni Make News

RC alumni Ayşe Odman, RC 90, Sedat Ergin, RC 75, and Yiğit Şardan, RC 82, leave their mark in different mediums of communication.

Capital Journalist. A journalist with a career spanning eighteen years, Sedat Ergin has been appointed Hürriyet Newspaper's new Ankara Bureau representative. Ergin studied at Boğaziçi for a short period of time and then at Ankara University where he received his degree in the political science/international relations department. He started his journalistic career in 1975 at the International News desk of Turkish News Agency. Between 1979-1987 Ergin was a diplomatic news journalist at Cumhuriyet newspaper's Ankara bureau. In 1987 he joined the Hürriyet staff and took over their Washington desk. In the past six years that he's been at that position Ergin published many articles on Turco-American relations. In addition to this, Ergin has been the pen behind the "From Washington" column for the past three years. For his efforts he was awarded the news award of 1992 by the Istanbul Journalists Association.

Peace and Friendship. How many people can you think of who

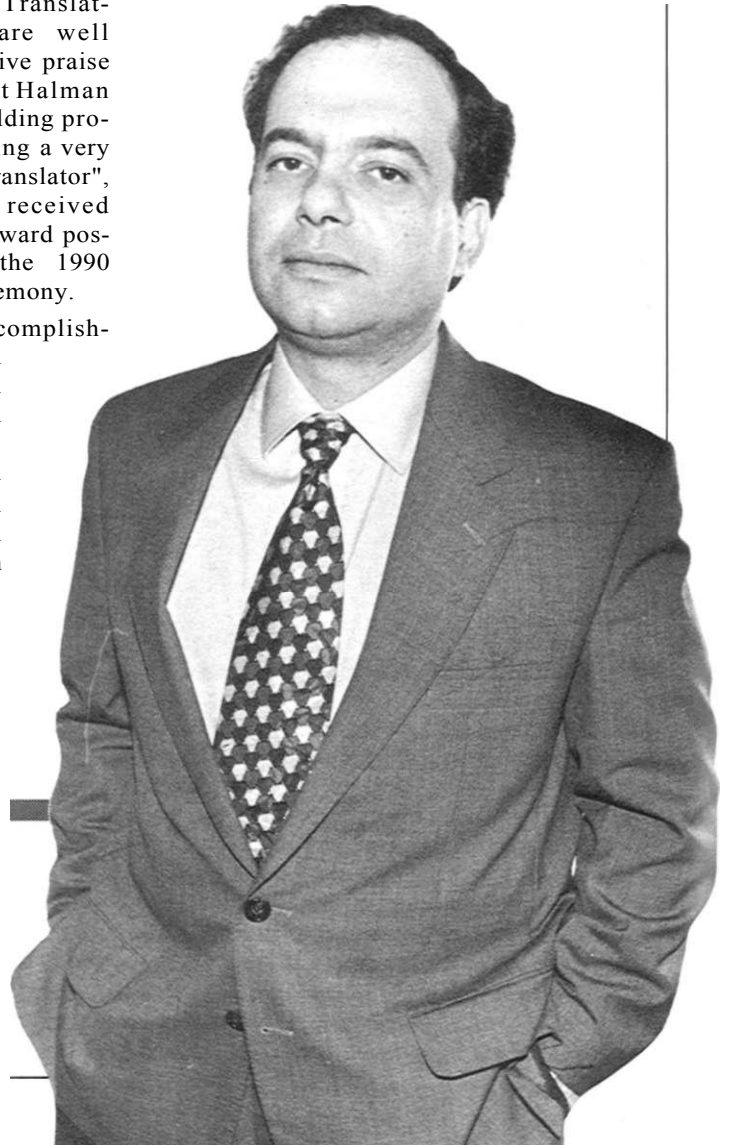

can sit down and enjoy reading Shakespeares' sonnets while understanding them enough to translate them to Turkish? We know of one such graduate, Ayşe Odman, RC 90. Translating Shakespeare well enough to receive praise from Prof. Talat Halman in 1989, as "holding promise of becoming a very fine literary translator", Odman also received every literary award possible during the 1990 graduation ceremony.

Her latest accomplishment has been to receive third place in the 6th Abdi İpekçi Friendship and Peace award in the branch of interview in '93. Organized by Milliyet news-

paper and open to all, Ayşe was also the youngest ever to win this award. Her work which deserved such recognition was an imaginary interview held with Yavuzer Çetinkaya, RA 65, a well known author and actor whose untimely death in July 1992 was a loss to the literary and screen world.

Ayşe says she had never met him personally but had always wanted to. From reading about him and his works she felt she already knew him. After his death she felt the obligation to go ahead and conduct an interview.

TV's new boss. Young, only 29 years old, good looking and attractive. A bachelor who plays basketball, loves homecooking and hates cigarettes. Has a positive outlook and cheery disposition. Dislikes arguments in his private life and looks for the same, non-argumentative qualities in his friends.

Who is this man who sounds too good to be true?

An RC 82 graduate, Yigit Şardan has recently been brought to head SATEL, a private TV channel owned by the Sabah group. With a background in advertising (he is a partner of Gilzel Sanatlar/Saatchi and Saatchi) Şardan believes his appointment is part luck and sheer hard work. He says he had always wanted to head a telecommunications company and credits his great concentration skills and his passion for work for his success. In a time where there has been a sudden deluge of private TV channels, Şardan believes SATEL will be number one but he declines to give away his secret formula of how this will take place. We'll just have to wait and see.

Yigit Şardan, RC 82, is a recent RC addition to private TV.

STUDENTS

Of Sports and Students

As well as keeping up with demanding studies, many RC students excell at their chosen sport.

Various sports are represented among the students at RC. Other than the volleyball and basketball teams there are individual athletes like rowers, riders, swimmers, water polo players, runners and skiers.

Of the runners at RC, Rana Özbal (Lycee III), has been running since she was 11. She caught on fast because her father Hadi Özbal RA 63, is a runner himself. Training under strict conditions for the past several years she now trains with the Boğaziçi Univer-

sity track team.

Sometime after she started her training, Rana says she developed "the feel" for running and it has stayed with her. Running became not only a physical activity but also a spiritual need. She feels its a time to think, make decisions and refresh the soul. She runs at least six times a week at the Boğaziçi track and at Belgrade forest and also works out with weights at the gym.

Rana's favorite types of races are cross-country which are only run in the fall and winter. During

spring and summer she participates in track races, her favorites being 800m and 1500m. This past fall Rana took third place in Istanbul and 23rd in the nationals in Ankara in cross-country races. She says she would love to be a national athlete and go to the world cup but if that doesn't come true her ultimate goal is to keep up this sport and enjoy it even when she's very very old!

Skiing is another popular sport but RC's ski club is still very young. Established in 1991, the team has been participating in championships for the past two years. In March 1991, RC placed 2nd in the inter-collegiate championships and last year they placed third. This year, RC wasn't able to enjoy the success of years past. However, individually Nil Güler (Lycee III), daughter of Recep Güler RC Eng 69, and Zeynep Güler RC Yök 72, placed fourth and was asked to participate in the national team tryouts. Melis Terzioğlu (Orta III) who placed 5th in the Orta category was also invited to the tryouts.

Rana Ozbal refreshes body and soul as she runs laps during training.

Lysistrata was the English Drama Club's most recent production. Under the direction of Gerard Kennedy, this ancient Greek comedy which emphasizes feminism puts on stage a group of women who go on strike. No ordinary strike is this. These women go on a sex strike in order to protest their husbands interest in war. Their efforts are all to put an end to these wars. The play enjoyed great success among the viewers as its timeless messages made the same impact as it had done 4000 years ago.

FACULTY

Winds of Change

Interim head Benjamin Williams will be leaving us at the end of this academic year. He spoke to RCQ about his experiences here and his views on RC.

RCQ - Had you heard of RC before you came here?

Ben Williams - Yes, I had. My first headmaster at Pomfret School in 1962, Joseph Miller, had returned to Pomfret from a position as head of RA. The senior master at the time, chairman of the English department Bill Parquette had also taught at RC and was married to the former Rosemary Tubini who had grown up on the campus as the daughter of another faculty member. My knowledge of RC therefore coincided with my entry into education 31 years ago.

RCQ - What was the main reason you accepted the position at RC?

BW - The opportunity to spend a year in circumstances that were totally different from anything that I had experienced was very attractive. The fact that I had

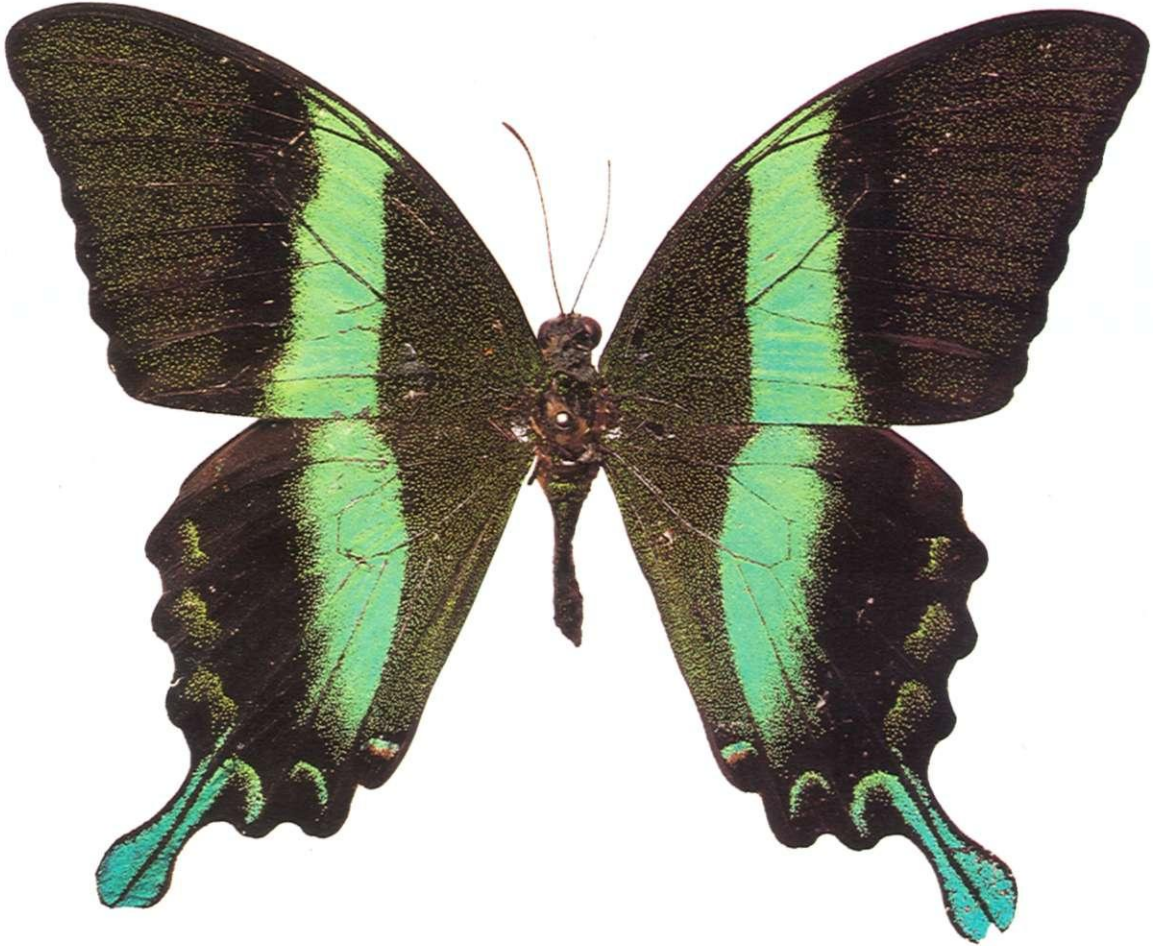

known of RC for a long time and that for a number of years I have been both a friend and colleague of Chris Wadsworth, who will succeed me as head, only made the prospect more appealing.

RCQ - What kind of a relationship do you have with the students here? How would you compare it with that of the US?

BW - I enjoy the relationship that I have with the students. I don't know as many personally as would be the case in the US and yet those that I have come to know have made life here considerably more pleasurable. I have tried to invite relationships by keeping the door open and appearing at any student event. In the States my association with students would span a number of years and I would have greater opportunities to know more of them better. Also, I've never spent an interim year anywhere. Knowing that I was only going to be here for one year with rather

Ihe alumni who have devoted time and energy to RC have set a fine example.

Haydi Dođal gaza. Demirdöküm'le!

ULTRA

specific responsibilities relating to the transition, my focus has been more on administrative matters, working with trustees and faculty than on students.

RCQ - You have had a chance to mingle with alumni and work with them on activities such as Annual Giving. What are your views on alumni/RC relations?

BW - I think the alumni who have devoted time and energy to RC have set a fine example. They've always been as supportive and friendly as can be. I'm very impressed with their loyalty to the school.

RCQ - What do you see as the main problems of Turkish education in general and the main problems at RC?

BW - My direct experience is limited to RC and I'm not qualified to speak on Turkish education in general, but I have always believed, and my personal and professional experiences have reinforced the belief that the more private education can function independently of governmental influence, the better off we are. We need to be able to suc-

ceed or fail on the basis of our own merits. We know our students, we believe we know what is in their best interests and yet if our convictions run counter to governmental policies or regulations we are prevented from doing what we believe to be in the best interests of the students we exist to serve.

RC is in the fortunate position of having valuable resources that other schools don't have and a tremendously able student body.

Therefore it is entirely appropriate that we serve not only as a model but also as an educational resource center for the benefit of secondary education in Turkey. I believe RC should and would embrace such an opportunity, accept the risks which would be ours alone and contribute in whatever way it could. To accomplish such objectives we would need more autonomy than we have now.

We have been given permission to do some things which allow us to be different. We have instituted an academic calendar and an evaluation system that is different from that in any other school in Turkey. Assuming that this "experiment" proves to be productive not only for us but from the

standpoint of governmental officials we may well be given opportunities to do some other things differently. Its not as though there has been no opportunity or there is no prospect of future opportunity. I'm just impatient to get on with it when the cause is so worthy.

RCQ - If there was one thing you had the power to change at RC what would it be?

BW - The autonomy issue I've already discussed. Beyond that I would like to see RC having a greater involvement, especially the students, within the neighboring community. We would benefit from association outside the school, developing sensitivities, acquiring a broader perspective and also I believe the community might well be served by a more active association with RC. I recognize that such programs are fraught with hazard and would have to be very carefully managed, particularly in the area of community service. If we are able to establish more active relationships within the community we will create learning opportunities for our students which simply cannot occur in a classroom.

RCQ - How would you want to be remembered at RC?

BW - The changes that I'm talking about cannot take place overnight. I hope we have begun a process that will pay major dividends down the road and I have a lot of confidence in Chris Wadsworth and the Board of Trustees and the faculty to follow through on efforts that are currently underway. If I have in the end contributed to starting a process that turns out to be of benefit to the community then I will be very satisfied.

My wife and I came with high expectations and as we look back on what turns out to be an incredibly short period those expectations have been fully realized. Its a truly enriching experience and we'll always look back to our year here with a great sense of appreciation for the opportunity that we were given.

I f I have contributed to starting a process that turns out to be of benefit to the community then I will be very satisfied.

Cause For Celebration

1.5 billion TL was raised for RC in 1992, and a new goal of 3 billion TL is set for 1993.

The 1993 Annual Giving Campaign Kick - Off Dinner was held on March 17, 1993 at Bizim Tepe. Cause for celebration was the fact that the 1992

goal was met, having raised 1.5 billion TL for Robert College. Guests attending the celebration were class representatives, high honor donors, corporate donors, scholarship donors and trustees

of the college. The most successful class representatives, responsible for getting their class into the top ten, by either the amount raised or percentage of participation, received special recognition on this night.

The highlight of the evening, however, was the speech delivered by guest of honor Ibrahim Betil RA '64.

Outstanding class representatives were honored at the Annual Giving Kick-off Dinner (left).

The audience was moved and inspired by Betil's thought provoking, sensitive and witty address. The inspiration will certainly come in handy as class representatives start all over again to work to attain the new goal set for 1993.

1993 marks the fifth year of the Annual Giving program. The goal, to be reached by December 31 1993, as announced by Benjamin Williams stands at 3 billion TL.

It is hoped that many more names will enter next year's Annual Giving Report, the "Honor Roll". For it is the names of loyal graduates in the "Honor Rol" that allow Robert College to go on serving new generations of Turkish students.

Deniz Yıldızı

Annual Giving Kick-off yemeğinde RA 64'lü İbrahim Betilin yaptığı konuşma bütün dinleyenleri duygulandırıp, düşünmeye sevk etti. Aşağıda bu konuşmadan alın- tıları okuyabilirsiniz.

Bilim adamı ve yazar Lauren Iseley yeni yazacağı bir kataba konu düşünürken çalıştığı otelin ilerisindeki kumsalda yürümeyi sevmiş. Okyanus kıyısında kilometrelerce uzanan kumsaldaki sessizlik yeni fikirler üretmesinde etkili olmuştur. Yazar bu yürüyüşlerin birinde genç bir adamla karşılaşmış...

Genç adam kumsaldaki deniz yıldızlarını eğilip yerden aldıktan sonra okyanusa doğru fırlatıyor, sonra bir başkasını alıp yeniden okyanusa doğru fırlatıyormuş... Yazar genç adama bu deniz yıldızlarını niçin toplayıp okyanusa fırlattığını sormuş. Genç adam "Güneş yükseldikçe deniz çekiliyor. Deniz yıldızları suyla buluşmazlarsa ölürler. Onları teker teker alıp okyanusa atıyorum. Böylelikle canlı kalmalarını sağlıyorum!" diye cevap vermiş.

Yazar kilometrelerce uzanan kumsalda binlerce deniz yıldızının bu şekilde kurtarılamayacağını, sonuçta genç adamın çabalarının pek birşey farkettirmeyeceğini söylemiş. Genç adam yere eğilip bir tane daha deniz yıldızı almış, okyanusa fırlatmış. Ve... "Ama bunun için **farketti**" diye cevap vermiş, kumsalda yürümesini

sürdürmüş...

Bizler bu çatının altında yıllar önce eğitilirken, ülkenin eğitime ayırdığı olanaklar bugünkünden çok farklı değildi. Ama bu okul yine farklıydı.

Ben geriye baktığımda... bireysel- liğin değerini ilk bu sıralarda öğrendiğimi görüyorum.

Geriye baktığımda... her başarının ardında mutlaka bir mücadele olması gerektiğini... kestirme yollar- dan uzun süre pek bir yerlere varı- lamayacağını yine buralarda öğrendiğimi anımsıyorum.

Bu toplumun bugün, bunlara ben- zer değerlere duyduğu gereksinim geçen yıllardan daha az değil... Bu topluma bu değerleri verebilecek o- kulların sayısı ise çok değil... Bizim okulumuz böyle bir kurak çölde, ve- rimli bir kaynaktır... ender eğitim kuruluşlarından biridir... Bu okulda verilen eğitim değerlerinin sürmesi, bu olanaklardan yetenekli gençlerin yararlanabilmesi için **bizlerin** katkı- larının sürmesi gerekiyor... Yani bir anlamda buraya yapacağımız küçük

katkılarla bu önemli eğitim faaliye- tinin sürmesine ve topluma ye- ni değerler ka- zandırmasına destek vermeli- yiz...

Bizim zamanı- mızda bir Mar- tin Luther King vardı. Şöyle bir deyişini anımsı- yorum:

Ben küçüğüm. Dünya ise bü- yük. Ancak kü- çük değişiklik- ler yaparak, da-

• ha iyi olması yolunda bu bü- yük dünyayı de- ğistireceğim. Robert Lise- si'nin çatısı al- tında yüzlerce **deniz yıldızı** ol- duğuna inanı-

yorum. Ve yapılabilecek bir sürü **küçük değişiklik** olduğuna...

1993 yılında okyanusa bir **deniz yıldızı** daha fırlatmanızı öneriyo- rum...

Küçük bir değişiklik yapın. Hiç kuşkunuz olmasın... Farkede- cektir.

Poetry Symposium

Lyrics of Love, Laughter, and Lament: On September 27, 1992 Bryn Mawr witnessed an Anatolian poetry symposium covering 4,000 years of art. Selections from Hitite, Assyrian, Greek, Hellenistic, Byzantine, Seljuk, Ottoman, and modern Turkish poetry were presented by Talat S. Halman. Professor Halman currently teaches Near Eastern Languages and Literature at New York University. Besides being a former Minister of Culture and a former Ambassador of Cultural Affairs of the Turkish Republic, Talat Halman

is also a poet, translator, critic, and cultural historian.

On this poetry evening, sponsored jointly by Robert College of Istanbul and the Bryn Mawr College History Department Prof. Halman took his listeners on a journey from Hitite's Central Anatolia to Ionia on the Aegean coast, and then to East Anatolia's border with the former Soviet Union, finally stopping at Istanbul. Yet the most interesting aspect of the lecture was that the poems read were not only written by nomad Turks, wise Anatolian women, legendary

Prof. Talat Halman (right) signs one of his books

heroes, or other poets of Turkish origin but also by Greek, Persian, and Syrian poets as well, thus showing the kaleidoscopic blend of cultures present on Anatolian soil.

Away from all of the economic views and political attacks on the peninsula, the audience

was presented with the chance to understand how historians could be bold enough to call Anatolia "the cradle of civilization."

The above excerpts are from an article written by İdil Çakım, RC '92, and was published in The College News at Bryn Mawr College.

Fifty graduates between the years of '85-'92 got together in New York City.

Student Reunion Weekend

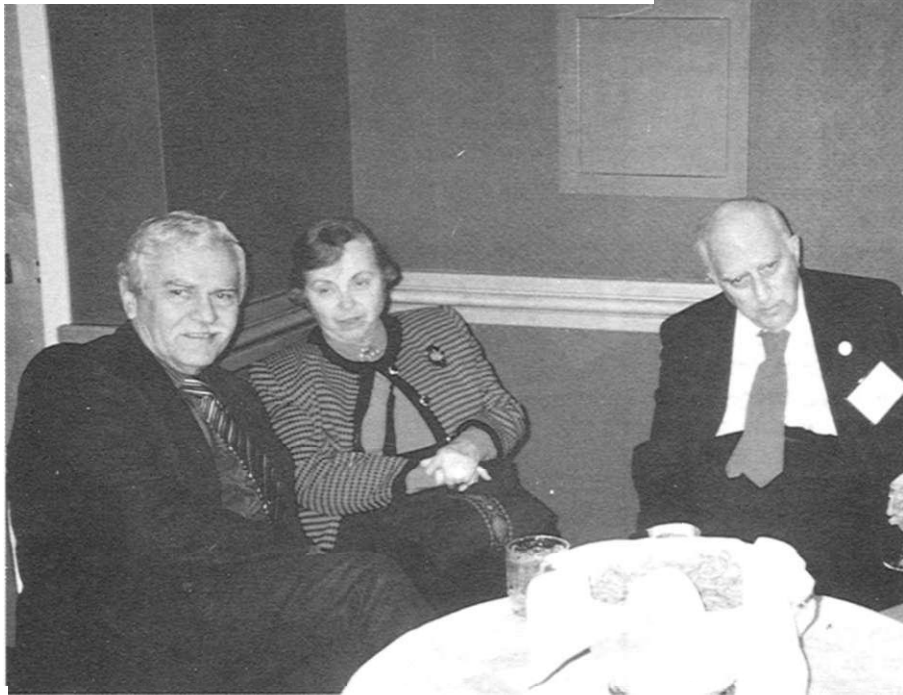

The Third Annual Student Reunion Weekend was held in New York City on the weekend of October 31st. Fifty Robert College graduates from

the classes of 1985 to 1992 attended the dinner held on Halloween night at El-Amir Restaurant in Manhattan. The majority of those in attendance are currently enrolled in

universities and colleges and represented more than 20 different schools. The reunion also attracted a number of RC graduates who have completed their educations, are now working, and wanted to see friends and maintain contact with the school. Four students drove from Wisconsin and Chicago (a 14-hour drive) to take part in the festivities.

Trustee Alfred Ogden II and his wife Susan joined the merry group. Mr. Ogden welcomed everyone on behalf of the Board of Trustees and said a few words about his own involvement and interest in Robert College. Following the dinner, several students spent the night at the Ogdens' home as well as at homes of other area alumni/ae and friends who offered generous hospitality to the visitors.

Turkish Friendship Council Conference in Washington, DC, which was held on January 30, 1993. More than 60 alumni, friends, and former staff and faculty members who were all either participants at the conference or residents of the Washington area attended.

Trustee Nicholas Ludington offered words of welcome to the guests. He also introduced Dr. Ustun Erguder, RC 57 and President of the RC Alumni Association Board in Turkey who has recently been appointed

Rector of Boğaziçi University. Dr. Erguder added his own comments about his continuing involvement with the school and his pleasure at being part of the Washington gathering.

This event becomes more popular every year, providing a few precious hours to greet old friends and renew contacts with Robert College.

Ever since the Class of 67 celebrated its 25th year in 1992, they have speeded

up their organized events. A lunch and fashion show brought the class together at Bizim Tepe in order to raise money for the Motilite Laboratory, Gastrointestinal illnesses Department of Marmara University. A classmate, Prof. Dr. Nefise Barlas Ulusoy is presently in

charge of this laboratory. A C G 67's contribution to the environmental effort has been to plant 100 trees to help raise a new forest around Alibeykoy. On the other hand, a marble bench is currently under construction on campus in memory of their lovely school days at A C G. Another activity which brought the class together was the donation of a much needed fax machine to

be used at Bizim Tepe. A C G 67 class representative Sema Ozsoy, speaking of her class, says they are still full of high spirits and energy. Having accomplished "Hot Days Sixties" in June 1992, the class is planning to organize a new event for the sixties during the second half of 1993.

REUNIONS

RC 75

Success ought to be shared and celebrated. That is exactly what RC 75 class agent Nursuna Memecan did at BT on April 16. Sixty-five class members came together to celebrate their success in the 1992 Annual Giving Campaign. What they accomplished was no easy feat. The class had the highest percentage of participation and were the third highest in amount contributed to this worthy cause. Günseli Ünlütürk and Hayriye Elbi came from Izmir to join in the festivity and Headmaster Williams was there with his warm presence. The Class of 75 departed with plans to get together on a picnic on June 20 where they will probably be gathering energy for the challenging campaign year ahead.

We had a good cause for celebration. And, we reminisced the "good old days" with Nahit Yücel's nostalgic songs.

ACG 71

ACG 71 seniors started their 20th year celebrations where it had all begun; on the steps of Marble Hall. The participation of teachers and 45 "girls" made it a colorful reunion with everyone recounting what they had been up to. The rain which had been with the class during their graduation ceremony also joined them so the reunion was complete. Pledges were made to get together for the 25th year in 1996.

HOMEcoming '92

The weather blessed RC with another sunny day in late November, for Homecoming 92. This annual event (the sixth will be held this fall) continues to bring hundreds of alumni back on campus, back to friends and back to those good old days.

The class of 92 won the award for the most represented class during HC. Above are some of those award winning young alumni.

The RC "golden girls" basketball team (above) played a succesful game against the present RC girls team.

The Class of 42 celebrated their 50th year reunion during the HC 92 festivities.

Troy Revisited

Results of New Archeological Excavations were presented in New York City. The symposium sponsored by Robert College, the Classics Department at the Univ. of Cincinnati and the American Turkish Society, Inc. had over 200 individuals in the audience. The participants in the symposium (left, L to R. Brian Rose, Hans Gunter Jansen, Stella Miller-Collett, Manfred Korfmann and Getzel Cohen are all currently involved with the ongoing excavation of the site. Their topics covered the history of the excavation, the latest findings and modern methods of exploration.

Mission Accomplished

It certainly is a most satisfying pleasure for a person to look back on one's life and see the fruits of one's endeavors. February 18, 1993 was such a day for Mrs. Sadun Katipoğlu ACG 34, and Dr. Nejat Eczacıbaşı RC 32.

A founding member and the life-long Honorary President of the Alumni Association, as well as the former World President of Soroptimist International, Mrs. Katipoğlu was the guest of honor at a reception hosted by the International Conference Interpreters (UKT). The key note speaker was Dr. Eczacıbaşı and the occasion was Mrs. Katipoğlu's retirement from the Economic and Social Studies Conference Board of Istanbul after twenty years of service as Secretary General. The hostesses were the first conference interpreters of Turkey trained under the auspices of the Conference Board.

In 1961, Dr. Eczacıbaşı founded the Economic and Social Studies Conference Board together with Nuri Eren RC 34, Vehbi Koç, Dr. Nezi̇h Neyzi RC 44 and other professionals and academicians.

The goal of the Conference Board was to organise annual conferences bringing Turkish industrialists, academicians and government officials together in order to start a dialogue on the social and economic issues concerning Turkey-a novel concept for Turkey in those days.

After a number of successful conferences, the Conference Board started inviting foreign experts to

were sent to Switzerland to be trained. However, the Conference Board decided there should be a more economical and long term solution for the training of these interpreters. They then started to bring in Swiss experts to train people in Istanbul.

On Feb. 18, 1993 the first conference interpreters of Turkey paid tribute to the two outstanding alumni. Sadun Katipoğlu and Nejat Eczacıbaşı, and presented each with an engraved silver plate.

Looking back on those early days of the Conference Board, the first conferences in Turkey, the training of the first simultaneous interpreters, and now seeing the well-known group of first professional interpreters, the UKT before them, both Mrs. Katipoğlu and Dr. Eczacıbaşı felt their "mission was accomplished".

They were proud to see Nur Seden Camat, ACG 53, Gülseren Albatros. ACG 58 ex, Nora

Barzııay Sirmen ACG 46, Okşan Atasoy ACG 58, Figen Çelteklı Seyrek ACG 65, Nigar Nigar Alemdar ACG 66 and Dr. Ece Tasalı RC 86. and their colleagues Suna Bozkır. Belkis Çorakçı, Suna Erler, Renata Koç, Leyla Ayas and Yaman Aksu. The late Rita Gabay Aktay ACG 48, was greatly missed on the occasion.

address them. Yet, what was going to be done about the language barrier? The Conference Board found an immediate solution. They were going to help pioneer the training of conference interpreters who would simultaneously interpret their conferences.

Closed Economies and Minorities

Dear Sir;
Matching democracy with mixed, closed, controlled, command or centralized economy is like trying to mate a sheep with a wolf. All the countries that we call developing are the victims of this impossible mission. The motive behind this self-defeating system is to keep or hold the reins of the people.

The people and the central organs do not voluntarily and seriously consider each others' wishes. Central planners will never have regard for the economic freedom of the individual. On the other hand, man can be productive only if he is free to regulate his own pursuit of industry and improvement.

This system, therefore, presents innumerable problems in every phase of the social, political and economic life. Millions of obstructing staff and roles are thus created.

The laws of these countries impede natural movement of human beings, information, services, commodities, other goods and capital. They encourage corruption, smuggling, contraband, clandestine means, unregistered economy and injustice. Even their constitutions, instead of limiting the activities of the state, reinforce those laws that suppress the dynamism of the nation. Only the rulers, regulators and a privileged few are immune. Yet, those countries, are inaccurately considered "democracies" if they hold elections regularly. The antiquated self-defeating system and not the governments, nor the people should be blamed.

The minorities in those countries are the first ones to migrate. They think, wrongly, that they are the only ones treated unjustly. If some of the citizens belonging to the majority do not leave, it is because most of them have no relatives or acquaintances abroad.

Dynamic men never take tyranny of controls for granted. That is why immigrants from Europe and other continents settled in America.

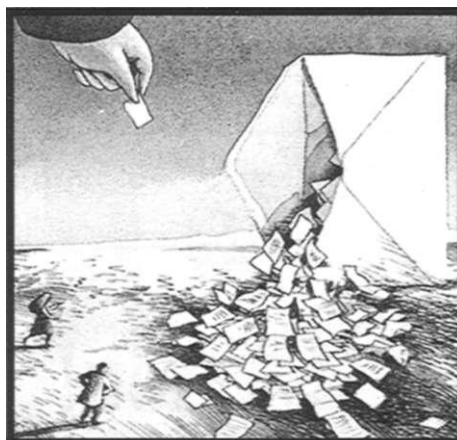

Until some time ago we were also the victim of this self-defeating system.

But now Turkey is a different country. Our economic reform and "openness" that some closed countries are trying to emulate should be appreciated and encouraged. Yet, the U.S.A. restricts its imports from Turkey while it exports two and a half times as much. We are now more free-trade minded than some countries that were traditionally considered liberal. In the last three years sixty five percent of all foreign goods that entered the country were imported free of duties or taxes. We are surely entering an era of economic as well as political freedom. People running away from closed countries are finding their haven in Turkey. Since autumn 1983 we have gone through six free and peaceful ballotings including a national referendum and two general elections. The latest one was held on Nov. 29th.

Our liberal system will pave the way to grant dual citizenship even to the descendents of our former minorities living in any corner of the world. They will be able to cast their ballots freely and be elected. If need be they will have the chance to defend their ideas on legal platforms. This is a great challenge to make a new start in a milieu of freedom of movement, equality of opportunity and justice.

Turkey will be the bastion of liberalism and stability in the Middle East. It is enough to look at the map to realize how vital this is. The eastern flank of NATO and free Europe is protected by the reliable Turkish army at huge costs. It is only fair that the countries that benefit should shoulder their share of the burden.

The late Mehmet Ata Mermerci RC ENG 49, was well-known for his letters which he wrote and sent out to the movers and shakers of the political and business world.

TEMPRA... DISTINCTIVE HIGH TECHNOLOGY

Not one of Tempra's competitors in its class can even come close to matching the distinctive superiority of Tempra.

What others sell you extra as expensive options, Tempra provides as standard.

Take a look at its digital electronic instrument panel-perfect control and easy handling-you

can find it only on Tempra.

These features can't even be purchased separately.

Why?

Because Tempra Standards are high-high technology.

Isn't it time you raised your standards?
