**B**elated season's greetings to all. We apologize that an issue of the Quarterly had to be skipped this year, due to reasons beyond our control. Here at last is the belated "fall 91" issue, combined with "winter 92".

All of us involved in the publication of this magazine were flattered, however, to receive numerous calls from alumni who assumed their copy was lost in the mail or inquired to verify addresses and balances due. It was reassuring to see that the RC Q which is mailed free of charge to over 6000 alumni and friends around the world reaches its target and makes quite an impact.

In this issue you will find news of yet another Homecoming Day (page 34), another new building dedication (page 34) and another successful Annual Giving Campaign Year drawing to a close (page 43). So much of what happens at the College is repetitive and cyclical in nature, yet there is always an inherent and exciting sense of change and planning for the future, (page 8) As Headmaster Harry A. Dawe, who will be leaving this June at the end of this, his sixth year remarks, "...Robert College with its dynamic heritage, is always evolving to meet its present and anticipate its future", (page 16)

Here's hoping that future issues of the RC Q will reach you promptly, we wish you a happy and healthy 1992.

## ALUMNI ASSOCIATION NEWS

*Interested alumni are only a phone call away from joining the Social Committee on their carefully planned trips.*

### Full Day of Art

On October 17, Thursday, a group of interested alumni gathered together at the college and took off for the Women's Library at Haliç to visit Neşe Erdok's painting exhibition. The day devoted to arts continued with a stop at the Museum of Islamic Art. The "Expressionism and Post Expressionism" painting exhibit there generated high interest among the viewers. All that art roused up everyone's appetite. Sümengen Hotel was the setting for a truly delicious lunch and even then the day wasn't over. On the way back home the group stopped at Yıldız University to view the English handicrafts fair. After a full day of events and a big lunch everyone was in great

wonder as to what the 50.000 TL they had contributed towards the trip had actually paid for. The comfortable

minibus transportation? The three art exhibitions? Or the filling delicious lunch? The Alumni Association

looks forward to having you all participate in their carefully planned trips organized by its Social Committee.

One of the exhibitions on Homecoming Day was the one on RC's sports past. The Alumni Association spent many hours researching and organizing the material to be exhibited along the halls of Gould, which made up the RC Sports Hall of Fame. RC Sports successes and "firsts" were hung in chronological order for all visiting alumni to admire.

## Shopper's Delight

The Alumni Association's traditional Mini Bazaar took place in December despite being postponed one week due to a surprise snowstorm. This colorful event was well attended as usual since it has become one of the most popular bazaars in Istanbul. One of the surprises that day was a fur coat donated to the Alumni Association to be won through a lottery. The lucky winner was Mrs. Zuhul Dabanovitch who is a teacher in the Orta school. This is a bazaar she will probably never forget! Don't miss the next mini bazaar to be announced in the coming months.

## Helping Hands

The Heritage Room, a veritable treasure house of RC's historic past, changed locations this past fall and moved from Gould to a temporary location in Bingham. There, it will wait until arrangements are made for a new permanent home where the treasures will be on view for all students, visitors and alumni.

No easy task was the packaging and recording of all the objects, files and books safeguarded there. Members of the

Alumni Association very willingly spent long, dusty (!) hours among the hundreds of little archeological treasures, painstakingly packaging them for protection during the moving process. Hundreds of rare books, pictures and files also received the same care.

Always ready to volunteer their help the Alumni Association played a big role in preparing the Heritage Room for its future location.

## New Project to Last

The Alumni Association starts 1992 with a new project planned to last for many years. Under the supervision of the school's music department, keyboard courses have been organized for the students. With the cooperation of Yamaha, 11 keyboards were bought and students are being taught for 1.5 hours a week.

The course which started in January will last until the end of June and the instructors are specialized teachers from Yamaha. Sema Ozsoy, board member of the Association who is in charge of the project says "The realization of the project lasted nearly a year. From the moment we decided to start this project lots of running around had to be done to overcome the formalities."

The method selected is very simple and is designed by the Japanese to teach the keyboard to small

children of even four years. The aim of the Alumni Association is to give momentum to the music activities of RC and start an instrument teaching activity that did not exist before. Plans are to extend the project to the service of RC alumni children as summer courses.

The Alumni Association is thankful to school

administrators Harry Dawe, Ayfer Yeniçag, Mehmet Çamoglu, music teacher Margaret

Hahcioglu and Yamaha representative in Turkey, Oner Tuzun RC 60 for their full support and cooperation.

*The Yamaha course held after school on Mondays is a good opportunity to learn to play the keyboard.*

## The Bizim Tepe Kaleidoscope

Dear Kolejliler,

Hard as it may be to believe, a whole year has passed and the Bizim Tepe coordinating team is still on its feet. I give thanks to all because 1991 was a good year for us both financially and spiritually. Stronger bonds between old and new members were formed, lots of social activities were held and colorful and classy bridge tournaments took place.

Art, yoga and fitness classes, improved restaurant service, more circulation within the club complex and such reminded us of the saying, "Nerede hareket, orada bereket." As the Bizim Tepe coordinator I can't say we have reached our goal completely but we will continue trying. I wish you all a very happy 1992.

Sevgiler Darlings,  
**Ferihan Göksu**  
BT Coordinator

**T**he last summer bar night brought together three popular barmaids, Fatma Barlas, Sevil Can and Fatma Karakurt pictured here with BT barman Hakan Uluer. The BT Bar Nights, one of the most popular of BT events, continue at full swing all year long. Come one, come all. You never know who might be serving drinks that night.

## Olympic Warm-Up

**T**he fun filled indoor olympics sponsored by Hugo Boss was a night to remember! All kinds of interesting games pitted BT members against each other and the competitions generated a lot of laughs. Not only that, handsome men modelled Hugo Boss outfits and made everyone wonder why they weren't in the modelling business! Pictured here are Ulker Melek and Sema Kasapoglu blowing with all their might and Zuhra Sezer and Salih Katipoglu who were at perfect ease in their new profession.

## BT Goes South

**O**n Oct. 29, A "Farewell to Summer" tour to Alanya brought BT members together to enjoy the final warm days. Pictured here from left to right are the champions of the tennis tournament held there. Suat Öroğlu, Bülent Özsoy, Yeşim Özsoy and Ferihan Gökso.

## Songs for a Cause

**N**eco was with us at BT on Nov. 23 singing his popular songs. Those lucky to be present that very cozy evening were thrilled with his music and appreciated his efforts on behalf of fund raising for scholarships at RC. Profound thanks were offered him by BT coordinator Ferihan Gokso and Alumni and Development Office Director Leyla Aktay and he was bestowed the title of "Darling Artist."

## The Waltz is Back at BT

**T**he Viennese waltz evening held at BT in October generated great interest as it is not often genuine waltzing is done anywhere. The students of the Austrian St. George school put on a lovely waltz show for the BT guests.

After the show the head of the Austrian office Erwm Lucuis and BT member Teoman Doltas. and their graceful partners danced away to the strains of Strauss.

COVER

# Where is the Orta?

The changes at RC which have as their roots the merger of 1971 are nearing their final chapter with the addition of new facilities. This physical development of the campus has created changes in the functions of the existing buildings.

**O**n a recent weekend, I watched a few graduates walk up to the second floor of Gould Hall, basketball in hand, only to find that where they had expected to find a gymnasium, there was now a library! If an alumna had gone up two more floors in Gould Hall in search of her old dormitory room, she would find classrooms and faculty offices rather than bedrooms. And those looking for old Orta classrooms in Bingham Hall would now find, of all things,

the business office on the main floor, and on the top three floors a brand new spacious dormitory for girls.

Now thoroughly confused our graduate might well ask, "Okay, but where is the Orta?" We have all become used to the three new buildings where once there had been empty space. But the old buildings, apparently the same, seem to have changed in their occupants. Upon entering Woods Hall, our confused firmament eventually would have found the Oilu School in its new home.

and parts of Sage and Mitchell Halls interconnected by a second floor walkway.

The last issue of RCQ dealt with the big change of 1971: the merger of Robert Academy and the American College for Girls, an event which made the Robert College of today. This certainly was a radical change in the history of the College. Are we now experiencing yet another change in the form of reshuffling of places? The best answer is "not really," for in

many ways what our graduate was seeing is no more than the final

chapter of that change which began in 1971 and is in fact the proper physical housing of that new school which came to life as a result of the merger.

When the new theater and gymnasium were built, the problem of the "gymnatorium" was solved and when the new science building was occupied, even more new space was created. This bonus made it possible to rethink the use of the entire plant. The hasty merger of 1971 superimposed a boys' school on a girls' college. Almost 20 years later

*Orta students are enjoying their new spacious classrooms, some with a view of the Bosphorus (above).*

*Additional computer space and new terminals offer a wide range of possibilities for the interested student (left).*

there came an opportunity to study how best to use the School's physical plant so to enhance the educational program as it now is and is likely to be in the future. This in effect is the final physical adjustment of the merger to house properly a contemporary, coeducational Orta-Lise.

Although buildings are not the essence of a school, there is no doubt that human activity is strongly influenced by the shape, quality and relationship of the buildings in which it takes place. Churchill's comment, "We shape our buildings; afterwards they shape us," is very apt for schools. Therefore the liberation of space in the old buildings, brought about by the new ones, gave us the chance to do some "shaping"-which afterwards would shape us and the School's program.

We wanted to be sure that we were shaping it in the best possible way. In order to broaden our thinking we retained the services of a campus planner, Mr. Jack Robinson of Cambridge, Massachusetts, and we began by thinking about what would be the ideal arrangement for a school such as ours. What eventually emerged was a comprehensive Campus Master Plan.

In studying where and how to locate various functions, we thought about which activities should be separated, which should

*Sage Hall (1914): The wife of famous financier and speculator of the 19th century Russel Sage, donated over \$ 100,000 to erect the dormitory building in memory of her husband. Now houses the boys dormitory and Orta classrooms.*

*Woods Hall (1914): Jointly paid for by Bostonian Mrs. Henry Woods and Helen Gould and planned to be a science building. Now houses the Orta classrooms.*

be consolidated, and which should be coordinated. Using that framework, it became clear that things such as student residences, food service, maintenance and business offices should be separated from the academic areas. Likewise, it was felt that the two divisions, the Orta and Lise, should be less distinct entities and a bit more coordinated, while still retaining a separate focus and home base.

Finally, it was felt that a modern library, resource-media center, including such things as computers was best built as a single consolidated entity.

Applying this basic format to existing buildings and available spaces their usage became quite logical. The girls' dormitory in Gould Hall, becoming increasingly overcrowded, was relocated to the north end of the campus in Bingham Hall. Also moved to that area, in the lower floor of Bingham, were the business and maintenance offices. This move located these non-academic functions in a properly removed manner, and has permitted the substantial upgrading of boarding facilities for girls (in Bingham) and boys (in Sage). Two dormitories now flank the central buildings.

The renovation of Woods and Bingham, plus the addition of Sage and Mitchell, in a way educationally appropriate for middle school education, produced an excellent location for the Orta. This has made it easier

*The new girls dorm in Bingham offers a split level recreation area*

# '92 yenilikleriyle herkes için en iyi seçim yine Toyota

Her kesime, her zevke, her ihtiyaca uygun bir Toyota mutlaka vardır.

**Mitchell Hall (1914):** Gift of Olivia Phelps Stokes who donated \$ 100,000. She requested the building be named Mitchell Hall in memory of her friend Sarah Lindly Mitchell. This building houses the dining hall as well as classrooms (above).

for teachers to work together in both divisions and for the administration of the Orta and Lise to become more coordinated. It will be the most significant change by which what had been in effect two schools has now become one school with two divisions. Bingham was not built to be a middle school, Woods Hall now is.

With the Orta division anchored toward the south, the area of Gould Hall and the new building complex as far as Bingham Hall on the north will become the Lise section. Math and science classes are held in Feyyaz Berker Hall, with other subjects using the new Gould fourth floor classrooms. The fact that the Orta is more compact while the Lise is a bit more diffuse is appropriate for the different age groups. Both divisions will have easy access to the library and computer rooms.

This work was accomplished last summer. Still to be done are the new library which will encompass three Levels in Gould, including

**Gould Hall (1914):** Gift of Mrs. Helen Gould Shepard who donated \$ 150,000 for its construction in memory of her parents Jay Gould and Helen Day Miller Gould. Jay Gould was the son of a farmer who became a self-made millionaire. His daughter Helen first became interested in the college after the burning of old Barton Hall on the Üsküdar campus. This administrative area of the school also houses lycee classrooms and the library (above).

**Bingham Hall (1923):** It was first planned as a school of medicine for women. \$ 100,000 in donation from William Bingham (trustee at the time) was followed by further donations and the building was dedicated to the memory of his mother Mary Payne Bingham. It became the most modern and best equipped medical school for women in this area but sadly was unable to continue to operate due to lack of funds. Until 1991 it was used as the orta school and at present it has become the girls dormitory and the business office (below).

*Students are trying to get used to the canteen's new location.*

the ground floor level, and a new dining facility to be located just to the west of Bingham. Then, all vehicular traffic will be removed from the rear of all the buildings thereby making possible a splendid pedestrian mall. A bridge connecting the fourth floor classrooms in Gould with the back road to the science building will complete the circulation of what might be called the Lise circle, which will range from Mitchell to Bingham around the new social forum, with lockers, lounges and club rooms on the lower level of the

new building. The new theater will then become a central place for formal assemblies. Various other diverse gathering places will be developed, both to the north and the south. An old cistern behind the science building, uncovered during the excavations could well become an elegant canteen.

As to the graduate's question, "Where is the Orta?," we can answer: "-closer to the center of the School in a setting especially designed for it." As to the larger question of why the changes, one must answer that unfreezing the ban on new buildings led inevitably to a series of physical changes which, through careful planning, we have tried to use so as to create a physical setting for a proper secondary school. To do so we have had to disassemble what had been set by the merger and to recombine activities in a more logical and useful format.

As to an even larger question, "Where is Robert College?," we can answer with confidence: "On its way to becoming well-housed to meet the challenges of the next century."

*By Harry A. Dawe*

*The three new buildings recently built on campus stand as proud symbols of alumni support towards this unique institution. They are named after their benefactors, who themselves are college alumni. The Science building is named after Feyyaz Berker RC 46, of Tekfen Holding; the theater is named after Suna Kıraç ACG 60, of the Koç Foundation; the Gym building is named after Nejat Eczacıbaşı RC 32, of Eczacıbaşı Holding.*

# Passing Through

Harry A. Dawe, Headmaster of RC since 1986 announces decision to leave in June, "proud to have participated in the evolution of this school."

At the start of my first year at Robert College in a talk welcoming the new Prep

class, I said that the most difficult parts of any journey were the take-off and landing. Beginnings and endings can indeed be difficult, particularly endings, when one needs to guard against sentimental cliches, such as the one above. Therefore, I will try to be alert to the take-off/landing problem in formally announcing the fact that I will be leaving Robert College at the end of this, my sixth year.

In a school such as Robert College, a Headmaster, like a student, plays but a partial role in the school's overall history, passing through, certainly learning things and perhaps leaving a mark before leaving the school to his successor. Sometimes he is able to initiate, but sometimes he is called upon to manage a process already in train or merely to bring a long term movement to completion. Each era has its particular imperatives, and we must keep in mind the fact that Robert College, with its dynamic heritage, is always evolving to meet its present and to anticipate its future.

The most striking movement during the last five years has been changes in the physical plant which are described in the previous pages of this issue. In this, I managed a process already begun. I am

pleased to have supervised the completion and refinement of the new construction and to have planned the renovation of existing buildings, all in the context of a campus plan. A new library and dining room have yet to be built but the essential outline of a new arrangement is established and visible. This new allocation of spaces provides an educationally sound setting for a contemporary Orta-Lise as well as for a variety of possible different future configurations.

My role in the restructuring and renovation of the physical plant was one of continuation. However, I initiated the review, reform and renovation of the School's English program. Hard upon my arrival, I was told of a general decline in English language and competency. In meeting graduates and observing students, I found a range of abilities from fluency to marginal competence in English. Therefore, department heads from the outside were selected to provide fresh perspective and objective evaluation.

As a result, some changes have been initiated. A process such as this is not without controversy, nor should it be. When there has been a long period of little change in program and less turnover of staff, convenient patterns naturally evolve and habits can become so ingrained that new ideas and approaches are given only lip service. The new curriculum will require a more natural interactive and flexible approach than has been used in the past with the

reading of more books and a major increase in the use of writing. Because the superficial appearances of rigor are not as evident in this approach, and because one of its goals is to engage the willing interest of the students, it might be perceived as a lowering of standards.

In actual practice, however, it is slowly becoming apparent that students are reading more, writing

tical terms and usage. Rather than a decline in standards, it should soon be possible to demand more of all students in the upper grades than was possible in the past.

In their essence, these reforms are designed to so engage the student with English that he or she will take the responsibility for her or his own learning. This is not to say that all new methods are superior. It is to say that Robert College needs to be aware of all contemporary approaches so as to remain on the cutting edge of the future. Only in so doing will it remain true to its own essential self.

I can say that I have learned much about myself, education, Turkey and Robert College. I took a special interest in the history of the College not merely to learn of its accomplishments but to seek out its true and essential nature, the spirit which informs its life. Thus, I could become a good steward of that spirit. I believe that essential element is a spirit of innovation, a perspective which has always kept the eyes of those responsible for the School on the future, not on the

past. Indeed, it has been that future vision which created the glorious past. I am proud to have participated in the evolution of this School, I am pleased to have been associated with so many good people and I hope that future leaders will be able to participate in building the history of Robert College by keeping it true to its heritage of building for the future. As I look forward to my own kind of alumni status, I am proud to be joining your ranks."

more and enjoying using English more. This, and an improved professional climate in the department, was recently remarked upon by a former teacher who returned after a few years absence. Perhaps certain things previously done in the Orta are now done in the Lise and some familiar priorities have been modified. However, long-term fluency and self-engagement with English is the goal, not measurably short-term mastery of gramma-

# Bir Zamanlar Spor Sahalarında

RC'nin tanınmış spor simaları geçmişlerindeki unutamadıkları olayları sizlerle paylaştılar.

Esra Paşakay Ulusoy A C G 62

## Uçan Kasket

**B**enim 1957'den 1970'e kadar devam eden trampelen atlama senelerimden bir anım var ki hiç bir zaman unutmadım.

1959 yılı Türkiye Su Sporları Şampiyonası Adana Yüzme Havuzunda yapılıyordu. Adana'ya gidip otellere yerleştik. Müsabaka günü havuzun 3 metrelik trampeleninden ilk atlamamla kıyamet

koptu. Çığlıklar, ısıklıklar ve beni en şaşırta şey ise havalara fırlatılan kasketlerdi. Tezahürat aynı şekilde on atlama boyunca devam etti. Hayatımda böyle bir olay görmemişim. 1959 yılında benim yaptığım onlar için tam bir akrobasi idi. Bir kızın havada dört yöne taklalar attığını ilk defa görüyorlardı ve bu onları hayli coşturmuştu.

Adana'lıların bana gösterdiği bu sıcak sevgiyi ve çığlıkları, o havada uçan kasketleri ömrüm boyunca unutmayacağım.

Başka bir anım ise yine tramp-

lenle ilgili. Trampelen atladığım yıllarda ilk iki sene müsabakalara iki kız atlayıcı katıldı. Fakat tarafımdan geçildikleri için bir daha katılmadılar. Sonraki seneler ise hareketlerim on nizami atlayışa çıkınca bunu yapacak hiç bir kız atlayıcı çıkmadı. Artık trampelende yalnız kalmıştım ve seneler boyunca kendi derecelerimle yarışacaktım. Müsabakalarda yalnız atlamak bana hiç bir dinlenme imkanı vermediğinden hakemler beni erkek atlayıcılar arasında atlamaya başladılar.

Böylece sıramı beklerken dinlenebiliyordum. Derecelerim ise her zaman erkek atlayıcıların yüksek dereceleri ile aynı idi.

Galatasaray adasında yapılan bir şampiyonada atlamalar sürdükçe önde giden erkek atlayıcı ile aynı puanları alıyordum. Benim tarafımdan geçilmek düşüncesi onu çok rahatsız ediyordu. Son atlamamızdan önce bana: "Esra ne olur kötü atla. Eğer beni geçersen ben burada trampeleni bırakırım." dedi. Nihayet son atlamalarımızı da yaptık. O gün kızlar şampiyonu olmaktan öte erkeklerden de yüksek bir derece yapmıştım.

Erkeklerde birinci gelen Deniz Harp Okullu atlayıcı arkadaşımız ise hakikaten dediğini yaptı ve o gün trampeleni bıraktı.

Bir daha onu hiç bir müsabakada görmedik.

GülBerkmenCilivACG67

## Koruyucu Kanatlar

**S**porla ilgili anım deyince Mrs. Linder'ı, Mrs. Linder deyince de okul takımlarımızı dış etkilerden (!) koruma görevini ne denli ciddiye aldığını anımsamam mümkün değil.

Diğer okullarla maç yapmaya gittiğimizde, soyunma odasında karşı takım elemanları tarafından izlenmeyelim diye o çok bol paltosunu iki yana açar, önümüze perde yapmaya çalışırdı. Bu duruma diğer kızlarla beraber gülelim mi, yoksa Mrs. Linder'ın her seferinde tek-

rarlanan ısrarlı tutumuna sinirle-  
nelim mi bilemezdik.

1966 yılında Tercüman Gazete-  
si'nin düzenlediği Liselerarası  
Voleybol Şampiyonasında İstan-  
bul Şampiyonu olmuştuk. Kupa-  
mızı İnönü Stadında bir Galatasar-  
ay- Fenerbahçe futbol karşılaş-  
masının devre arasında alacaktık.  
Stada okul formamızla gitmemiz  
istenmiş, fakat ACG lise ünifor-  
ması olmadığından siyah etek, be-  
yaz buluza karar kılınmıştı. Uy-  
durma üniformalarımızla maçın  
ilk devresinde saha kenarına yer-  
leştiril mistik. Devre sonuna ka-  
dar koruyucu Mrs. Linder'ımıza  
rağmen tüm seyircinin meraklı ve  
komik takılmalarına hedef olmuş-  
tuk. Nihayet devre arasında gaze-  
te yetkilisi bizleri tanıtıp kupamızı  
vermek istediğinde ise, mikrofo-  
nun çalışmadığı anlaşılmıştı. Böy-  
lece bizlerin niye oraya çıkarıldı-  
ğı, niye ödüllendirildiği anlaşıla-  
madan, seyircinin bol bol tezahü-  
ratına karşılık Mrs. Linder 'ın ko-  
ruyucu kanatları arasında sahayı  
terk etmiştik.

Dave Phillips Jr. (PE teacher)

## Team Effort

**I**n 1985, the orta boys basket-  
ball team attended the region-  
ais in Edirne. Upon arriving we  
found out that we would not be  
allowed to play because we had  
the wrong licenses. However, the  
players took it upon themselves to  
go see the Mayor of Edirne and  
the Chief of Police. Getting no re-  
sults there they returned to the  
Sports Hall and begged the other  
coaches from various parts of  
Turkey to allow the team to play

with their İstanbul licenses. Some  
coaches agreed but our first oppo-  
nent, Kırklareli's coach said no. In  
the end everything worked out be-  
cause the school prepared the li-  
censes in four hours and Mr.  
Forsgren and Mrs. Shepard  
brought them to us by match time.

## Kaçak

**K**olejde bulunduğumuz za-  
man içerisinde çok renkli ve  
heyecanlı bir spor yaşantımız ol-  
du. Mensubu olduğum Galatasar-  
ay kulübü ve milli takım çalışma-  
larını bir kenara itip RC spor faa-  
liyetlerine katılmayı çoğunlukla  
büyük bir zevk ile tercih ettiğimi  
dün gibi hatırlarım. O "big gym"  
dediğimiz salonda oynanan ister  
sınıf, ister bölüm, ister varsity ma-  
çı olsun, hepsi sergi sarayını arat-  
mıyacak büyük bir ilgi ve coşku ile  
izleniyor ve bu da oynanan oyun-

lara kalite ve motivasyon getiriyordu. Bir gün yine büyük bir maç esnasında kalabalık bir seyirci kitlesi içinde antrenörüm Yalçın ve idarecim Süha Özgeri'yi gördüğümde çok şaşırılmışım. Maç bitimine yanlarına gittiğimde bana "Fuat, antrenmanı kırıp burada ne yaptığını öğrenmek için geldik, sen haklısın, buradaki oyundan çok etkilendik" dediler. Çok rahatlamış ve sevinmişim.

## Engin Ünal RC 54

### Kilometre Adam

**R**obert College'de geçirdiğim yıllar sırasında en büyük tutkum "spor"du. Sanırım, benimle aynı dönemde Kolej'de okuyanlar, beni "Yüzme Şampiyonluğumdan" -çok "KOVA" kaleciliğim ile hatırlarlar. Campus'ta , o toprak sahasımızda, büyük bir inatla kendimi yerden yere atıp- kale önünde epey diz, dirsek ve kalça derisi bırakarak hem Robert Academy hem de College takımının kalesini korumuştum.

İlginç anılarımdan birini, Mr. Nadolsky'nin bana taktığı "Nick Name" oluşturur.

Yüzmede ilk Türkiye Şampiyonluğu kazandığım 1951 yaz sonrası, okul açıldığı zaman, spor dersimizde, Mr. Nadolsky bizi boy sırasına sokmuştu. Ben eski senelerin alışkanlığı ile 9.'uncu sıradaki yerimi almıştım. Mr. Nadolsky bizlere şöyle bir baktıktan sonra birden, "Sen ne yaptın be çocuk!! Sen olmuştun "Kilometre Adam!!", geç sıranın başına" diye beni azarladı. Uzadığımı farkındaydım ama, aşırı yüzme antrenmanları nedeni ile 18 santim uzayarak sınıfın en uzun olabileceğim aklıma gelmemişti!! Bu olaydan sonra, birkaç sene, kilometre adam "lakabı" ile dolaştım.

## Ateş Çubukçu RC 60

### Kaybolan Yatak

**S**por yaşantımda başımdan o kadar çok ilginç olay geçti ki, saymakla bitmez. Bunlardan en canlı anımsadığım RC'ye geçmeden bir sene evvel 1957 yılında İngiliz High-School futbol takımıyla RC ile maça gelmiştik. Ben kaleci idim ve çok iyi oynayıp alkışlanmıştım.

Ertesi sene RC'ye transfer oldum ve kolejli bir arkadaş o maçtan sonra campustaki futbol sahasında her iki kale direğine benim adımla kazıyarak yazdıklarını göstermişti. Beni çok etkileyen bu olaya kolejdeki spor hayatımda la-yık olmaya gayret etmişim.

Kolejde futbol, basketbol ve vo-

leybolda sınıf takımında, Sportsmanship Brotherhood ve Varsity takımlarında olmak üzere 9 branşta oynardım. Günde 3 maç yaptığım olurdu. Aynı zamanda o sene İstanbul I. Liginde Modaspor Basketbol takımında şampiyonluğa oynayan bir ekipte oynadım.

Kolejde spor çok faaldi. Arkadaşlık son derece iyi ve ileri-ydi. Aradan 30 sene geçmesine rağmen bugün hala aktif spor yapan Ahmet Mantar, Yavuz Veyisoğlu ve Tevfik Göksel Varsity maçlarında beraber olduğumuz arkadaşlardı.

Üniversiteler arası maçlar için bir Ankara seyahatinde Cihan Palas otelinde kalmıştık. Odamız 4 kişilikti ve biz beraber o odayı aldık. Aramızda en büyük eğlence Yavuz'u kızdırmaktı. İlk gece yemekten sonra 3'ümüz acele odaya çıkıp Yavuz'un yatağını karyolasıyla birlikte yok ettik ve alt kata bir yere taşıdık. Yataklarımıza girip yattık. Birazdan Yavuz odaya geldi donup kaldı. Suratı sinirden mosmor olmuş, dili tutulmuştu. Bizleri kakkahayla güldüren bu olayı hala unutamam. Güzel günlerdi bence hala devam ediyor Bizim Tepe sayesinde.

# "Akademi, Aslan Akademi!.."

*Ahmet Güvener RA 72, Akademi beden öğretmenlerinden Abbas Sakarya ile Bebek Kampusu'nde görüşü.*

**Ahmet Güvener- RC'ye ne zaman başladınız?**

Abbas Sakarya-1959'da başladım ve 1977 yılında emekli olana kadar zevkle hocalık yaptım.

**A.G.- Siz kolejde hocalık yaparken Nadolsky ile ilgili ilginç bir anınız var mı?**

A. S.- Nadolsky sahalara ve büyük jimnastikhaneye bakardı. Field Day yapıldığı zaman akademi ve yüksek arasında muazzam bir çekişme olurdu. Ve akademi her sene yenerdi. 3 sene arka arkaya bir kupa konmuştu. Üçünü de biz aldık. Akademi, aslan akademi.

**A.G.- İlk defa Türkiye Atletizm Şampiyonasının Bebek kampüsünde olduğunu biliyoruz. Bu konuda biraz bilgi verebilir misiniz?**

A. S.- Efendim İstanbul'da atletizm pisti yoktu. Her sene kolej bu Field Day'i yapıyor. Atletizm de Field Day'de başta gelen bir spor. Türkiye'de de atletizmi yapan bir kaç kişi var. Fakat böyle Türkiye Şampiyonası yapılsın öyle bir şey yok. Bir sene Burhan Felek Atletizm Federasyonu başkanı iken, Türkiye Atletizm şampiyonası Robert Kolej'in sahasında yapıldı.

**A.G.- Kolejin ilk yıllarına baktığımızda kolejin bir çok spor dallarına öncülük ettiğini görüyoruz. Fakat son 20-25 sene içerisinde bazı spor yöneticilerini çıkarırsak, Şenes Erzik, Alp Yalman gibi, genelde popüler olmuş sporcular RC'den yetişmedi. Ama RC'den çok ünlü tiyatrocular, iş adamları, politikacılar yetişti. Neye bağlıyorsunuz bu durumu?**

A. S.- Efendim şimdi kolejden

güzel sanatkarlar falan çıkıyor. Fakat onların bir okulu var. Kolejde bir spor dersi var. Spor dersinde de programı neyse hoca onu yaptırıyor. Onun haricinde ayrıca böyle meşgul eden bir olay yok.

**A.G.- Son senelere baktığımızda, Türkiye genelinde diğer liselere oranla spora çok daha fazla önem verildiği görülür RC'de. Buna rağmen sporda belirli üne kavuşmuş RC'li yok. Yani RC mezunları spora bir yaşam biçimi olarak neden ilgi duymuyorlar?**

A. S.- RC'de ne yaptınız basket oynadınız, sahanız olduğu için.

çin yapıyorsun. Eğer bizde de Avrupadaki, Amerika'daki üniversiteler gibi olmuş olsaydı, 20-30 spor branşını yapacak sporcular olsaydı bak neler çıkardı kolejden.

**A.G.- Son olarak bize ilginç bir anınızı anlatır mısınız?**

A. S.- Bir yıl epey bir kar yağmıştı. Ben tünelde oturuyorum. Taksim'e geldim yürüyerek. Hiç bir vesayet yok. Nihayet bir dolmuş bulduk. Beşiktaş'a kadar geldik. Yanımda Edebiyat hocası Ekrem Bey vardı. O gitmekten vaz geçti. Ben kendime güvendim yürüyerek kapıya' kadar geldim. Kapıda ayak izi yok. Kapıdan yukarıya çıktım Derse 10 kala içeriye girdim, soyundum jimnastikhanede bekliyorum. Gdegele 8-10 kişi geldi Onlarda okulun leyli olan çocukları. Onlarla ders yaptık.

**A.G.- RC mezunlarına ve öğrencilerine bir mesaj vermek ister misiniz?**

Ondan sonra biraz atletizm yaptınız fakat tam bir atletizm yapamadınız. Çünkü sahanız yoktu. Yani kurallara uygun böyle bir yeriniz yoktu. Ne varsa onunla yetinmek zorundasınız. Bir de ders var. Derslerin de bazı programları var. Onun haricinde bir şey yaptırılmıyorsa. Sonra derslerin ağırlığı. Bir kere averaj tutturacaksın. Yani sporu ancak dersi doldurmak i-

A. S.- RC öğrencilerinin spor aktiviteleriyle daha ciddi ve daha çok branşlarda uğraşmalarını temenni ederim. Spor kültürlerini geliştirebilirler. Bu günkü durum diğer okullara nazaran belki iyi ama dünya standartlarına göre daha tatmin edici değil.

**A.G.- Bu söyleşi için çok teşekkür ederiz.**

A. S.-Rica ederim.

# Policy Makers

Experience in politics and diplomacy show RC students what really goes on behind the scenes.

**P**olitics brought together 10 lycee III students to represent Turkey in the European Youth Parliament held in Prague. The organization gave them the chance to meet people in the higher echelons of decision and policy making.

The European Youth Parliament is a simulation of the European Parliament in which student delegations prepare resolutions, work in committees and lobby to make their views accepted.

The preparation itself was a learning experience. The students visited the Ministry of Foreign

Affairs and were given a briefing by ambassadors on various topics. They interviewed the ambassador of the EEC in Turkey, Michael Lake and visited the UN library in order to research current issues.

In Istanbul, the fledgeling diplomats spent a day at Koç Company's headquarters to be briefed by industrialists and economists. They also attended a seminar prepared by the Univ. of Marmara's

economy department, and a seminar on how to convince, to put forward ideas and to influence people through speech.

They continued by interviewing Cem Duna, Turkey's ambassador to the European Parliament (the real one!) and with Inal Batu. Ankara's envoy to Czechoslovakia.

All these prepared them for Prague. Assuming their diplomatic identities students experienced the mechanisms of politics and diplomacy. Çiğdem Artun, their advisor stated that their week in Prague has prepared them to be better equipped to face the diplomatic challenges of the future.

**METROPIA: RC Students represent Turkey.**

**Destination:** The Netherlands

**Aim:** Solve the problems of European River Basin Management.

**How:** International co-operation among young people, no longer students but Ministers and Prime Ministers during the week of Metropia, a project aimed to exposing participants to the culture, language and tradition of the host city as well as to encompassing an ecological theme. International tolerance and cooperation were certainly put to the test. 60 teenagers representing 14 countries, learned each others customs and viewpoints during a week of debating and activities. They had to share limited space, cook and clean on board five sailing boats for 5 days. Language lessons were held and long hours were spent writing resolutions to be debated upon. After debates, content but slightly exhausted Metropians met at the Town Hall where the mayor gave a reception in their honor.

The next Metropia is to be held in Istanbul in April 1992 and the aim will be to solve the city's traffic problem.

Alumni interest would be greatly appreciated. Please contact RC teacher Clem Mc Donnell.

*Metropians spent five days on antique Dutch sailboats (above). EYP members left Prague with a better understanding of what goes on in politics.*

# Finesse

**D**uyuların en güzeli bayram günlerinde yaşanır. Seviçler sınırsız, sevgiler coşkulu, dostluklar daha anlamlıdır. Küçük armağanların ısıttığı yürekler tatlı bir gülümseyişle aydınlanır.

Tatlı bir gülümseyiş için  
özel bir çikolata...

**Lindt**

145 yıllık bir İsviçre geleneği

# Double Time

1595 will be a year to remember for a group of RC students who did an in-depth study for an English class project.

Students from two 1990-91 Lycee English classes presented Nigar Alemdar, president of the Alumni Association, with copies of their class projects, two 1595 Time magazines to be placed in the Heritage Room.

"These young authors join a long line of writers whose works can be found in the Heritage Room," said Nigar Alemdar. Temporarily located in Bingham, the Heritage Room houses all data relevant to RC's past.

Also present at the event were Dr. Irene Gilman, current English department chair and advisor to the project; Harry Dawe, headmaster; Ayfer Yeniçağ, Lycee principal; and Dorothy İz, who loaned many books from her personal library; and members of the Alumni Association Board.

The production of the TIME magazines stemmed from a study of Romeo and Juliet. Working on the year 1595, the year in which Shakespeare's play was first produced in London, students researched the library to find topics about which to write.

These ranged from the Emperor of Japan to Queen Elizabeth's farthingale, from explorations in the New World to the development of the Levant Company in the Ottoman Empire.

Working over a period of two months under the direction of student editors, the class wrote, edited articles, chose photos, composed headlines and captions. They typed and proofed copy, and designed the final magazines. An advertising committee even created advertisements appropriate to

the time period.

"The project could never have taken place if it had not been for the support of the library staff. The research instruction provided by the head librarian, Mrs. Pat Dawe, was invaluable," stated Dr. Gilman.

The writing of the TIME magazines was part of an on-going library education program. "The aim of this program is to help students become adept in research skills, and use data from their research

in informative and imaginative ways," said Mrs. Dawe.

The influence of the project has extended beyond the classroom in several ways. Mrs. Dawe and Dr. Gilman attended the European Council of Independent Schools Conference at Birmingham, in November to explain the project to European teachers and librarians. Also, because of their positive experience, several of the students joined the class which produces the Bosphourus Chronicle, the RC newspaper.

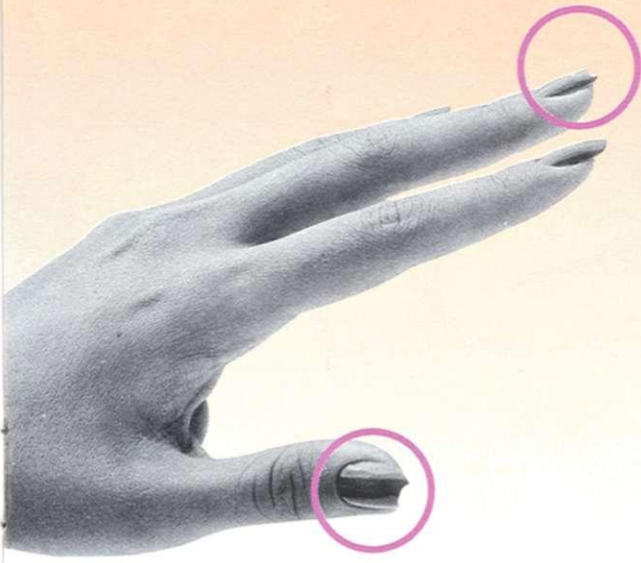

Özgür Demiral's words sum up the feeling of many of the students who worked on the project: "Through this experience, I learned not only the basic skills of journalism, but also the ethics of research and the joy of working together. I am looking forward to more of such challenging projects."

*Serious journalism and research and long creative hours produced two successful TIME magazines.*

# Now Featuring

RC alumni Ömer Kavur, Orhan Pamuk and Ersin Pertan have one thing in common these days. Their signatures are on two movies "Gizli Yüz" and "Kurt Kanunu", receiving critical acclaim in the past few months.

**T**he Antalya Altın Portakal (Golden Orange) Film Festival of 1991 witnessed the victory of two RC alumni. The winner of the best film award was Ömer Kavur's (RA 64 ex) (profiled in RCQ Spring 90) "Gizli Yüz" (Secret Face). This mysterious love story's scriptwriter was none other than Orhan Pamuk RA 70, who is a recently well known author.

Kavur's latest film "Gizli Yüz" steps beyond the stereotypical

Turkish films, and Hollywood films for that matter, because of its abstract expression which is open to discussion and debate. Kavur says it is one of his films he

most shares sentiments with.

This movie, Kavur says he feels such a bond with, has as its scriptwriter, young writer Orhan Pamuk who is not only read on a national level but is getting international acclaim as well (see page 45).

According to Pamuk, a movie, just like a novel, should be able to express many things at the same time. "Gizli Yüz", he says, might be deemed very different by moviegoers who are accustomed to the Hollywood type movies but 'we wanted to tell this story in a whole different way.'

They did - and won the Golden Orange award for best film in 1991.

Kemal Tahir's novel "Kurt

*Zuhal Olcay and Fikret Kuşkan share starring roles in Orhan Pamuk's and Ömer Kavur's "Gizli Yüz"*

"Kanunu" (The Law of Wolves), under the direction of Ersin Pertan, RC Yik 66, is now on the movie screens under the same name.

Director Ersin Pertan who also wrote the script and produced the movie is actually an economist specializing in gold. At the same time he is known in cinema for his art direction and his set photography. He describes his latest work as an intellectual journey through Turkey's recent political past. The gala of the film was held in Cemal Reşit Rey Hall in December 1991. Many RC alumni were there to watch the story of an underground organization; progress and union society's plans to assassinate Mustafa Kemal at the turn of the century. The year is 1924. The new republic is going through difficult and turbulent times when plans are drawn up for the assassination attempt. This sparks off group arrests, trials and executions against a background of love, passion and excitement.

Pertan says the film is an anti violence movie. At the same time, he says, they aimed to relay the message of the right to defense for all. The movie starring Ash Altan, Berhan Şimşek, Mehmet Akan, Hümevra and Yılmaz Zafer

will begin to be shown in the cinemas after being viewed in the Istanbul and Ankara festivals.

Meanwhile, Pertan is busy working on his second script "Yol Ayırımı", another Kemal Tahir novel.

*A scene from "Kurt Kanunu" (above); director Ersin Pertan with wife and art director of the film Ani Pertan (below).*

## ACG Graduate-Now a Dean

Classmates of Ceyhan Kozanoğlu, ACG'67 are proud to have a dean rise from among the classes they shared as young students. Their classmate Ceyhan Kozanoğlu has been appointed the Dean of the Faculty of Economics and Administrative Sciences of Boğaziçi University in September, 1991. She has a twin sister Seyhan Kozanoğlu Tuğcu, ACG'67 who is also teaching in the same university. During their school years they were both active in sports and were the members of the volleyball team.

After graduating from ACG'67 Kozanoğlu, specialized in the field of Marketing at the Business School of R.C. Later, she received her M B A

degree in 1975 from Indiana University, majoring in Business Logistics and Quantitative Business Analysis. In the fall of the same year, she started teaching in the Industrial Engineering Department of Boğaziçi University. In 1979, she transferred to the Management Department where she became associate professor in 1981 and professor in 1988 in the field of numerical methods.

Ceyhan Kozanoğlu, now working hard to be successful in her new post, says that her appointment as the Dean of the Faculty of Economic and Administrative Sciences of Boğaziçi University was sudden and a complete surprise to her. Good luck Ceyhan Kozanoğlu!

# Yoktan Var Edilen İlkler!

*Sema Özsoy, ACG 67, Türkiye Futbol Federasyonu Başkanı Şenes Erzik, RC Yük 65, ile Türk futbolu hakkında görüştük.*

**S. Özsoy - Sn. Şenes Erzik, okul yıllarından beri sporla özellikle futbol ile ilgilendiniz. Bir kaç sene üst üste futbol takımı kaptanlığı yaptınız ve zannedersen okul dışında da bir takımda oynadınız. Sonraki yıllarda yaşamınız sporla dopdolu geçti. Fenerbahçe'de, Futbol Federasyonu'nda ve UEFA da muhtelif görevler aldınız. Bu görevlerinizin neler olduğunu anlatır mısınız?**

**Ş. Erzik -** Hayatımın futbolla dopdolu geçtiği doğru. Futbol gerek okul yıllarında gerekse okul sonrası profesyonellik yaşantımda, yaşantımın önemli bir parçası haline geldi. Kolejde ilk günlerden itibaren sınıf takımı, okul takımı kaptanlıkları yaptım. Ondan sonra da yönetici olarak Fenerbahçe'de genel sekreterlik yaptım. Futbol Federasyonunun Dış İlişkiler Kurulunda ilk uluslararası görevime başladım. UEFA'daki ilk görevim ise 1978'de Türkiye'de yapılan UEFA kongresinden sonra UEFA gençlik Komisyonuna seçilmemdir. Türkiye'deki kongre sırasında Alp Yalman, Turgay Boyatlı gibi isimlerle birlikte ülkemizi en iyi şekilde tanıtmamızın uğraşı içerisinde ilk adımımı atmış olduğum UEFA da, 1980 yılından bu yana muhtelif görevleri sürdürmekteyim.

**S.Ö.- Robert Kolej spor alanında Türkiye'de pek çok "ilk"ler vermiş. Örneğin ilk spor bakanı, ilk kapalı spor salonu gibi. Sizin UE-**

**FA'daki göreviniz de bunlardan biri midir?**

**Ş.E.-** 1990 yılında Malta'da UEFA genel kurulunda yapılan seçimde rakiplerimi 15 oy farkla geride bırakarak, UEFA'nın en üst kurulu olan İcra Kuruluna seçilmem bu sorunuzun cevabıdır. Gerek ülkem adına ve gerekse, eğer kabul edilirse, RC adına UEFA İcra Kurulundaki ilk Türk olmanın gururunu yaşıyorum. Ayrıca Avrupa Kulüpler arası müsabakalarının organizasyonu, kura çekimlerini ve gözlemciliğini yapan 3 kişiden biriyim. Hatta geçen sene Kupa Galipleri Kupasında

| Milli takımımız ortaya koyduğu futbol itibarıyla başarılı. Sonuçlar da gelecek inancındayım. Biraz sabırlı olmalıyız.

Rottendam'da, Manchester United-Barcelona arasında yapılan finalde gözlemcilik görevini ben yaptım. Bunda da Türkiye adına ilktik.

**S.Ö.- Türkiye'de futbol 7'den 70'e herkesin ilgi alanına giriyor. Adeta Türkiye'nin nabzı futbolla daha bir hızlı atıyor. Bu nedenle Cumhurbaşkanı, Başbakan ve partilerden sonra Türkiye'nin en ücra köşelerinde herkesin bildiği bir i-simsiniz. Bu ev hayatınızı ve yaşantınızı nasıl etkiliyor?**

**Ş.E.-** İzlenimim şu ki Avrupa'nın her yerinde futbola ilgi giderek ar-

tıyor. Tabii bizde insanlar fazla duygusal olduğu için bu tür başarıları çok benimsiyoruz. Dolayısıyla futbol başarıları kazanıldığı zaman bilhassa ülkemizde sizin de söylediğiniz gibi yediden yetmişe herkesin ilgi odağı haline geliyor.

Aile hayatımı sosyal yaşantımı nasıl etkilediğine gelince, maalesef eşime ve çocuğuma ve hatta işime ayırdığım zamandan büyük fedakarlıklarda bulunuyorum. Burada yaptığınız görev fahri olduğu için iyi yaptığımız ölçüde bizi daha fazla tatmin ediyor. Bence olayın anlamlı tarafı da budur.

**S.Ö.- Uzun yıllar saha gözlemciliği görevini sürdürdünüz. Bu göreviniz sırasında karşılaştığınız ilginç bir olay var mı?**

**Ş.E.-** Geçen yıl yapılan Olympic den Marseilles-AC Milan erken final niteğindeki karşılaşmada gözlemciydim. Maçın bitmesine 3 dakika kala ışıklar söndü. Tüm ikazlara rağmen Milan gibi Avrupa'nın futbol devi sahadan çekildi. UEFA disiplin kurulu Milan'ı sahalardan 1 yıl uzaklaştırdı. Bu maçtaki kararların ve sonuçlarına katkımdan dolayı UEFA başkanından teşekkür aldım. Bu maçı acı ve tatlı yönleriyle hiç unutamam.

**S.Ö.- Futbol Federasyonu Başkanlığına Sn. Turgut Özal tarafından getirildiniz. 4 yıl olan görev sürenizde spor alanında bir çok hizmetler verdiniz, veriyorsunuz. Bunların arasında sizin getirdiğiniz yenilikler var mı?**

**Ş.E.-** Öncelikle şunu belirtmekte yarar var. Bu günkü Federasyonu ilk defa tamamıyla bağımsızdır. Biz batılı federasyonların ana tüzüklerini inceledik ve ülkemize uygun çağdaş bir ana tüzük hazırladık. Herşeyi yeniden ele aldık. Biz kendimizi bu alanda tarihi misyon üstlenmiş olarak niteliyoruz. Futbol Federasyonu çatısından temeline yeniden yapılanma süreci geçirmiştir. Kurallarımız, uygulamalarımız ve harcamalarımız açısından tam yetki Yönetim Kurulumuzundur. Bu bize büyük

bir güç verdi. Örneğin ligleri 16 takıma indirme kararı ve uygulaması gibi.

**S.Ö.- Bu değişikliği yaparken dirençle karşılaştınız mı?**

**Ş.E.-** Çeşitli baskılar oldu. Sonunda başardık. Şimdi artık kimse ligleri kaç takım olsun diye sorgulamıyor. Kaldı ki Almanya ve İngiltere bizden sonra liglerdeki takım adedini azaltma kararı aldı. Bizim için sevindirici olan onların gerekçelerinin "milli takıma daha fazla çalışma zamanı sağlamak" olmasıdır.

**S.Ö.- Yine sizin başkanlığınıza kadar milli takımı devamlı değişen antrenörler çalıştırıyordu. Siz Alman antrenör Piontek'i getirdiniz ve kendisiyle 4 yıllığına anlaştiniz. Bu kararınızın nedenlerini anlatır mısınız?**

**Ş.E.-** Piontek dünyada milli takım antrenörlerinin önde gelen isimlerinden biridir. Ayrıca kendisi FIFA tarafından İtalya'da yapılan Dünya Kupası'nda görevlendirilen 5 teknik adamından biridir. Biz Piontek'i bu başarılarla dayanarak

oldukça zor uğraşlar sonucu Türkiye'ye getirdik. Amacım kendisinden, yurt çapında birbirlerine bilgisayar sistemiyle bağlı 9 bölgede, bölge antrenörleri vasıtasıyla keşfedilip yetiştirilecek ve genç milli takımlar oluşturacak bir şemsiyenin tepesinde milli takımımıza ve antrenörlerimize belli bir disiplin getiren değerli bir hoca olarak istifade etmektir.

Milli Takımımızın 1994 Dünya Kupası Elemelerine gitmesi ise Piontek'in hedeflerinin en önemlisidir. Bu arada 13 maç yaptık, hiç galibiyet alamadık diye çeşitli spekülasyonlar yapılıyor. Ama bugün biz istediğimiz takımla maç yapabilir hale geldik.

Almanya bize maç teklif ediyor ve hatta, bizimle hiç bir zaman A takımı seviyesinde maç yapmamış Fransa, bile A takımı seviyesinde maç teklif ediyor. Yani takımımız ortaya koyduğu futbol çizgisi itibarıyla başarılı, sonuçlar da gelecek inancındayım. Semerelerini önce gençlerden alacağız. Biraz sabırlı olmalıyız.

Ayrıca antrenör eğitimi Türkiye'de yıllardır ihmal edilmekteydi. Tesisle eğitimi birlikte götürmeyi planladık. Beylerbeyi Tesislerini 20 yıllığına kiraladık. Bu gün tüm görsel, işitsel cihazlarla donatılmış, antrenörlerimize son derece çağdaş eğitim veren bir tesisimiz var. Yine Riva'da 258 dönümlük, Milli Takıma kamp ve eğitimi olanağı sağlayacak bir analizi Türkiye Futbol Federasyonuna kazandırdık. Bunların hepsi yoktan var edilen ilkler.

**S.Ö.- Sn. Şenes Erzik, hem tüzüğü hem de çalışma sistemi ve ekibi açısından bir reorganizasyon geçiren ve Türk Futboluna kaliteli antrenör, futbolcu ve hakem yetiştirecek olan Türkiye Futbol Federasyonuna şahsınızda başarılar diler, bundan sonraki yıllarda da yaşamınızın yine sporla dopdolu geçmesini ümit ederiz.**

Bu söyleşi 15 Kasım 1991 tarihinde yapıldı. Şenes Erzik 24 Aralık 1991 tarihinde görevinden ayrıldı. 2 Ocak 1992'de tekrar aynı göreve atandı.

## HOMECOMING

# Homecoming '91

Over five hundred alumni and family reunite at R.C., enjoy the warm, friendly atmosphere of home and witness the start of a new era in R.C. sports.

**Scenes from Homecoming**  
*A bright fall day, a happy mix of people- familiar and new, wining and dining in the cafeteria and the excitement of each score during the basketball games. All in all an eventful day!*

"Look who's here ?" banners lined the walls of Gould and quickly filled up with names. Armed with felt tip pens Alumni Association volunteer Ayşe Doğruer, A C G 63, manned the hallway and as visiting alumni streamed past she had them sign their names on the banners.

People passing by could easily see who had come there that day as they scanned the names and

gave shouts of happy surprise to see the signatures of long lost classmates.

As in the past years, the youngest alumni class, this year RC 91. had the highest number of participants this day.

Homecoming 91 was a day full of events and happy surprises. Not only did it incorporate the 50th year reunion of the Class oi 41 but it also witnessed the official opening of RC's new covered gym-Nejat Eczacibaçi Hall. Mr.

Eczacıbaşı was present for the opening speeches and made the first shot of the Eczacıbaşı veteran team vs. RC veteran team basketball game which ended in a tie.

During the ceremony recognizing Nejat Bey for his contribution to RC's new gym, Suna Kıraç and Feyyaz Berker were also honored for their generous contributions to the new theater and math/science buildings respectively.

*Recent graduates attending U.S. universities represented 20 different schools.*

## Not a Quiet Group!

**O**n November 2, 1991, Robert College Alumni who are presently attending colleges and universities in the United States travelled to New York City for a reunion. On Saturday evening, the group of 58 students, trustees, and friends gathered at Micheal's Restaurant on the upper East side of Manhattan for a delicious Turkish dinner.

Wonderful Turkish music had everyone singing and dancing all evening. The real excitement, though, began at midnight when the belly dancer arrived.

Otherwise well-behaved young men suddenly started to vie animatedly for the opportunity to participate in her dance. It was not a quiet group!

A very good time was had by everyone, with much laughter and abundant loving friendship in evidence. The party ended around 1:15 a.m. with all ready to

come back next year.

Special thanks go to those who acted as hosts to the visiting students; Alumni Erol and Rachel Benjenk, Naz Erdeniz, Murat Eron, Davut

Habip, Özlenen Kalav, Yalman Onaran, Mehmet Özpay; Trustees Homer Byington, Virginia and Charles Maxwell, Tad and Susan Ogden, Rodney Wagner; and Friends Çiğdem Kurt and Richard and Fatma Reid.

*The golden anniversary celebrations were enjoyed by the Class of 41.*

**O**ne of the special events within Homecoming 91 was the 50th year reunion of the Class of 41. Fourteen ladies and two gentlemen came to RC on that day and became the guests of honor. They enjoyed lunch at a table reserved especially for them and received gifts to commemorate this occasion. The ladies were presented with silver ashtrays while the men received RC neckties. During Homecoming Assembly, Headmaster Dawe recognized this class and over five hundred people present that day gave great applause.

## REUNIONS

### ACG '61

On a sunny fall day, A C G 61 graduates met at BT to celebrate their 30th anniversary. On the terrace, tables decorated with lovely flower arrangements invited people to have a seat. The first grandmother-in-law and other firsts were recognised and a toast was made for the academic achievements of classmates as well as to those who excelled in arts. Among those

*Many of these 50 year old young ladies of ACG 61 had not seen each other since graduation.*

present were: Ayla Alpöge Ödekan, Prof, of Art History at İstanbul University, Esin Örucü, Prof, of Comparative law at the Univ. of Glasgow and Rotterdam Univ, Zeynep Yazıcı Davran, Prof, of Philosophy at BU and also elected President of Soroptimist International, Prof. Dr. Meral Arıgüç, teacher at BU elected by the Soroptimist International as their World Education co-

ordinator, Associate prof. Sevgi Sümer Frederich who is doing research in California, Tomris Uyar a well known writer, winner of the Sait Faik Prize, İpek Erdem Ongun, who won the 1991 TUYAP book prize, Dr. Dikmen Uçarer Gürün, theater critic and the general secretary of the newly founded Critics Association. Ayşe Kulin, senarist and writer, Dr. İpek Aksügür Duben, writer, Dilber Kamhi, painter, Sevil Ören,

assistant manager of International relations at Turkish Airlines and the general secretary to the board of Airline Representatives in Turkey (BART), Nükhet Fikri Atalay, president of YORET foundation (Yüksek öğrenimde rehberliği tanıtma ve rehber yetiştirme vakfı), Mualla Mezhepoğlu who continues to promote Turkish hand arts and run her export business, Şükriye Hazar, legal counsel in the Central

Bank and the president of the İstanbul Soroptimists, Leyla Pekcan RC Alumni Association Social Committee President.

### ACG 71

A C G 71 graduates gathered together on June 8 at Marble Hall to celebrate their 20th year anniversary. A reception was followed by lunch with the participation of 51 classmates and guests of honor, former teachers Mrs. Göksel, Mrs. İz, Miss Fincancı, Mrs. Stavradis, Vildan Tarhan, Enise Önüt, Seniye Fenmen, and Turan Çağlarca. Old days and ever fresh memories were remembered, some with sadness and some with joy. Plenty of pictures were taken while pictures from the past were circulated around and comparisons made. At the end of the event everyone sang the Alma Mater with slightly watery eyes and promises were made to participate in all the future class gatherings.

### RC '74

The 22 female members of the Class of 74 came together at Bizim Tepe for lunch on October 19. Among those present some hadn't made it to the

10 th and 15 th anniversaries and so hadn't seen each other in the last 17 years.

It was interesting to note that many of the participants had studied medicine and business administration after RC. To have a lasting

memory of the day, Ongilr wanted to take pictures but to her dismay she realized she had forgotten her camera in a taxi coming to BT. That was the only disappointment of the day and also explains why there isn't a picture of the Class of 74 on this page!

After having a lot of fun, the class decided to have repeat performances of these colorful reunions (minus forgetting cameras in taxis).

## REUNIONS

### RC '77

Almost a decade and a half later, RC 77 graduates were able to get together for the third time in September 91 at BT.

Despite all efforts only one third of the class could be reached.

Given the limitations involved-outdated address lists and those living outside Istanbul-it was a success to bring some fifty of us together. As classmates appeared one by one at the door, we were all eyes and ears scrutinizing each face in search of signs of familiarity but luckily Munir Bey was there with his unflinching memory. Much to our embarrassment at times there was not moment of hesitation from him in names, nicknames and anecdotes.

Soon it turned into a game; first the screaming of the names then the unforgettable events, then phrases and jokes. Time had left its marks on all of us but the mutual sentiment of the night was that nobody had really changed. Kaya's laughter, Ozver's jokes, Emine's kindness, Zeynep's vitality and Banu's attentiveness were as present as ever.

A major success of the evening was the decision to finalize contributions to the fund raising effort. As of September 25, the Class of 77

**Robert Trainer, Suna Kırac, Oya Başak, Sharif Kaynar, Ron Freilich at Trustee Alumni Reception Roundtable in New York**

## Reception and Roundtable in New York

Over 120 Trustees, Alumni and Friends of Robert College gathered in New York City at the Cosmopolitan Club on November 4 for an informal reception and roundtable. Erol Benjenk, RC'74 opened the program and introduced the panelists: Harry Dawe, Head of Robert College, Rodney Wagner, Chairman of the Board of Trustees, and Feyyaz Berker, RC'46, Trustee and Chairman of the Building Committee, and the Hisar Foundation.

Mr. Dawe enthusiastically discussed the evolution of the physical changes that have resulted in today's campus, most of which occurred during his tenure as Head. The renovations of older buildings and the addition of the new build-

ings have created a campus often puzzling to returning graduates wishing to retrace their steps. This altered campus, though, provides a more organized and efficient structure for the joint operations necessary for the Orta and the Use. Future plans for renovations will enhance what has already been accomplished.

Mr. Wagner addressed the financial aspects of the operation of Robert College. He provided information on the parts played by tuition, voluntary contributions, and careful management of the endowment.

Mr. Berker brought with him a number of slides showing both the outside and the inside of the new buildings, not previously seen by many of the evening's guests.

decided to establish a scholarship to be given to a boarding student. In fact the student chosen has started his education at RC while we were busy trying to figure out how much we will be able to put together towards his school expenses.

By the end of the

evening 14 million of a 25 million scholarship was secured on paper. We have undertaken a difficult but worthwhile task and we hope to reach the rest of our class to achieve this goal together.

First we wish to update our address list and bring more people

together for our 15th reunion in 1992. Please don't wait for us to trace you, let us know of your whereabouts at the following numbers:

# The speed and scale of change...

**HEAD OFFICE** Cumhuriyet Cad. 201 Elmadağ 80230  
İSTANBUL - TURKEY TEL. (90-1) 231 8745

The speed and scale of change in today's financial markets require an expertise that is flexible yet focused. This is MARMARA BANK's strength. We are positioned to take advantage of new opportunities offered by a dynamic market environment.

## FUND RAISING

# Annual Giving Goal Reached

Thanks to over 1400 alumni and friends who contributed, 750 million TL was raised.

Among the corporate donors to RC this year was Hitachi A. S. Presenting their cheque to Headmaster Harry Dawe is Russel Barnes, Hitachi Data Systems European Distributions General Manager.

**H**aving successfully completed its third year, the RC Annual Giving Campaign is here to stay. The number of graduates who "give something to RC each year" is on the rise. The first Annual Giving Report published in 1989 began with six hundred donors and 100 million TL, went up to one thousand donors and 300 million TL last year and boasts of one thousand four hundred donors and 750 million TL currently.

### Support on the Rise

While Annual Giving support has been increasing steadily over the last few years, there is still a long way to go if you consider that there are over six thousand RC graduates around the world. If your name has not appeared in the "Honor Roll" (RC Alumni Giving Report) yet, it is high time you joined in.

To those of you who have made success possible year after year, by contributing, thank you once again for your

vital commitment. The institution that has played such a significant part in your life now benefits from your financial support and continues to provide the same opportunities for new generations of Turkish children.

**New Goal, Ambitious but Attainable:** The 1992 campaign goal was recently announced as 1.5 billion TL. Ambitious but attainable! The Annual Giving Team made up of class representatives and the Annual Giving Committee is gearing up for the Official Campaign

Kick-off Dinner at Bizim Tepe scheduled for Thursday, March 5, 1992.

**How to Beat Your Class Rep:** Did you know that making a pledge for 1992 is only a phone call away? The Alumni and Development Office staff at 165 34 30/ext.308 or 163 42 39 is ready to take your pledge over the phone and it is now even possible to complete your pledge at the same time by stating your credit card number. Why don't you beat your class rep to it this year by making an early commitment before you are approached by him/her for your support?

## Talat Halman Elected to UNESCO Executive Board

**T**alat Halman, RC'51 and Trustee, won election to the Executive Board of UNESCO (United Nations Educational, Scientific and Cultural Organization) in Paris on October 26, 1991. Receiving 104 votes( 28 more than the required 76), he defeated the candidates of Portugal, Austria, Malta and Israel. Turkish candidates had lost the election since 1983. The last Tur-

kish member of the UNESCO Executive Board was Prof. Erdal İnönü. Talat Halman, Turkey's first Minister of Culture and former Ambassador for Cultural Affairs, is currently a Professor in NYU's Near Eastern Department. His membership on the UNESCO Executive Board, which sets the educational, scientific and cultural policies of the world organization, is for a four-year term.

## ALUMNI NEWS

moved to Istanbul in September 1991. Nihal Erdal was happy to announce that during the bayram this past April. 154 RC/ACG graduates were vacationing in Side. Address: PK 118 Antalya Tel: (home)31 114849, (office)31 113342-116054

### **Şükrü Sina Sipahi RA 67**

Continued his studies at ODTÜ and received both his BS and MS from there. He is working as a mechanical engineer and after being the assistant general manager at Nace Makine between 1972-1982 he is presently the manager of Sipahi Ltd. His wife Berrin Sipahi is a pharmacist and they have a daughter, Çağla who is a Lycee I student at TED Ankara College. Address: Kenedi Cad. 84/3 Küçükesat/Ankara Tel: (home) 127 46 3 168 10 19 (office) 168 07 82 126 53 64

### **Tank Ayasun RA 68**

Graduated from the Univ. of Maryland in 1972. Worked for international companies and travelled all over the world. He opened his own export/import business in 1979. Ayasun has been living in Marco Island, Florida since 1987. He is involved in local civic activities, the Rotary Club, Chamber of Commerce, school board, and enjoys boating and fishing every weekend. Tank Ayasun says he would love to hear from his friends. Address: 160 Leeward Court, Marco Island, Florida 33937 USA Tel: (home) 813 642 0885 (office) 813 394 6099

### **Doğan Özkul RA 68**

Attended Ege University Faculty of Medicine from 1968 to 1974. In 1982 he became an Assistant Professor of ear, nose and throat and worked as a member of the faculty. At the present he is working part-time as an ear, nose, throat specialist at Ege Univ. Department of Health. Sports and Culture. He also has a private practice in Alsancak. Izmir and operates in private hospitals in Izmir. He and his wife Sebahat have two daughters. Ece, who is 16 and Gülce, who is 14.

Address: 1452 Sok. 15/3 35220 Alsancak/Izmir Tel: (home) 118602 (office) 224761

### **Ergun Kirklovalı RC 70**

Ergun and Juliana Kirklovalı had their first child, a boy, in March 1991. They have named their son Kent Ozan. Address: 507 Harbor Woods Place, Newport beach, CA 92660-7827

### **Arret Tasciyan RC 71**

As of June 1991 moved to the U.S. and started to work at Pearson and Georgi International as the manager of the International Department. Pearson and Georgi is a reinsurance brokering company and has offices in major centers of the

## Literary Recognition

**I**n November 1991, Orhan Pamuk RC 70 won the French "La dé Couverte Européenne" prize for literature.

"Sessiz Ev" (Silent House) which was one of the six European novels put forward as candidates by a special jury was translated by Münevver Candaş and published by Gallimard Publishing House. The novel was chosen for this special prize by forty French library readers who made up the grand jury.

On Nov. 9, Orhan Pamuk's prize was presented to him in Strasbourg during the international "Meeting of European Literature".

world. The company headquarters is in New Jersey. Before this position he had served as the general manager of Vitsan, in the Turkish insurance and marine market. He and his wife Meri have a seven year old son, Michel. Address: 220 Knickerbocker Avenue, Hillsdale, N.J. 07642 USA Tel: (201) 358 6281

### **Leda Atamyian Simpadiyan RC 72**

Leda was here this past summer visiting from the USA. She and her

husband Diran who is also an RC graduate live in New Jersey and have two children. Leda was involved in the real estate business but she has quit that and now paints the homes of her customers who hang them in their living areas. In the picture below she is pictured with her RC 72 friends. From left Gülbanu Üstün, Gülnur Ayaz, Leda, Dalia Koen, Sema Bakır.

Address: 535 Amsterdam Ave Ridgewood, NJ 07450 Tel: (201)447 06 78

## VOLUNTEER SPIRIT

**S**ocial work is a strong part of our school's tradition. It is not always monetary contributions but the volunteer spirit that creates miracles for institutions. Do join the Alumni Association Social Committee for a fun and rewarding volunteer job. Give a few hours of your time to raise funds for scholarships and for other projects.

### **Hiilya Sonugur RC76**

Is busy as a pediatrician with a degree from Hacettepe Faculty of Medicine.

Address: Begonya Sok. No.5 Florya  
Tel: (home) 574 49 06  
(office) 180 20 35

### **Kayihan Engin RC 77**

Received his M.D. degree from Uludağ Univ. Medical College in 1983 and completed his two year compulsory service in Erzurum and military service in Istanbul. He was in Bethesda, MD in 1989 as a research fellow at the National Cancer Institute. In 1990, he completed his residency in Radiation Oncology in Istanbul and the same year he got married to Pınar Sagin. Since 1990, he has been working as a Thermoradiotherapy Fellow and doing cancer research at the Department of Radiation

Onchology and Nuclear Medicine, Thomas Jefferson Univ. Philadelphia, PA. Engin states they are using hyperthermia as a new cancer treatment modality and that he has had several publications in respectable international journals.

Address: 2601 Pennsylvania Ave. 2601 Parkway Apt. 1007 Philadelphia, PA 19130 USA  
Tel: (home) 215 236 6879

### **Verda Habip Falay RC 80**

The Falay family have a recent addition to their home. Liki, their second daughter, was born during the last days of 1991. Verda and Yosi's first daughter, Lara is already nearly six years old.

### **Nazli Şerifoglu Salihoglu RC 81**

Nazli studied at Istanbul Technical Univ. and received her masters

degree from there also. After having gotten married to Atilla Salihoglu in 1987 she recently gave birth to a baby daughter. Ece in April 1990. Nazlı says that Ece is taking up all of her time though she does play the piano in her spare moments. Some day she hopes to share this hobby of hers with Ece.

Address: Dr. A. Noyan Sok. Yah Apt. 8/3 8170 Erenköy İstanbul  
Tel: 355 40 92

# ŞIP DİYE!..

- 1 - Saat: 8.00

- 1 - Saat: 8.03

Sabah işe yetişeceksiniz. Beş dakikada dışarı çıkmanız gerekiyor. "Bir çay olsaydı" diyorsunuz... Ya da işyerindeyiz. Yoğun bir gün. Kısacık bir mola verdiniz. Canınız güzel bir çay çekti...

Lipton Poşet Çay'la işiniz çok kolay. Özlediğiniz çayı hemen, birkaç dakikada yapabilirsiniz. Şıp diye!..

Siz, bir fincan sıcak su bulun yeter! Poşeti fincana atın. Ve sadece 3 dakika bekleyin. Sonra... rengiyle, kokusuyla, tadıyla nefis bir çay için!
